Introduction to Wine Tourism

<https://doi.org/10.1515/tw-2023-2015>

Wine tourism is still a young science. Notable contributions only date back to the 1990s. In German-speaking countries, the scientific scene on this topic has only been making an appearance since the 2000s. However, the development since then has been extremely dynamic and has been accompanied by scientific co-operation, particularly with universities and scientific institutions in Germany, Austria and South Tyrol. In 2009, the Wine Tourism/Culinary Commission was founded within the German Society for Tourism Science (DGT). The following year, the first scientific conference of the commission was held at the headquarters of the Rotkäppchen Group in Freyburg/Unstrut (Germany) under the auspices of the Harz University of Applied Sciences. Contributions can be found in the conference proceedings (Dreyer and Müller 2011). In the following years, activities were intensified and conferences were organized in Oppenheim (Worms University), Bolzano (EURAC and FU Bolzano) and Vienna (FH) and documented in conference proceedings. (Scherhag 2013; Lun et al. 2013; Wagner et al. 2017) Due to the COVID-19 pandemic, conference activities had to be reduced and partly shifted to digital meetings (Rüdiger et al. 2021). In 2022, there was once again a conference with in-person participation at Heilbronn University of Applied Sciences as the 5th CWTC Culinary and Wine Tourism Conference; the scientific conferences have been held under this title in cooperation with Vienna University of Applied Sciences and Krems University of Applied Sciences since 2015. The activities of the DGT commission members, who gathered for the 9th annual meeting at Worms University of Applied Sciences in 2023, also include this volume.

A special issue about travelling to wine. Is the topic interesting enough for tourism? The appearance of the magazine alone gives a positive answer, but this should be explained in more detail. Wine regions are travel destinations that have become increasingly attractive in recent years. Wine plays a role of varying importance when travelling; this will be explained in more detail in a moment. In any case, the fact is that it is not wine and its consumption alone that makes wine

Wine 101: A Brief Introduction to Wine E. Terrence Woolf, J.D.,2017-01-13 This guide describes the origin and characteristics of the most important wine varieties available in the United States and includes a table of suggested food and wine pairings at the end of the guide It is intended to provide a quick reference for both the novice wine drinker and for the more experienced person who would simply like a guide to a good wine to serve with dinner **A Temperance Reading Book; Or, Elementary Chapters on Alcohol and Intoxicating Drinks. For the Use of Juveniles** John Ingham,1880

The Encyclopædia Britannica ,1893 **Social Impact of Wine Marketing** Mojca Ramšak,2022-01-24 This book is inspired by the term digiwine a neologism referring to the production and or marketing of wine through the use of new technologies and robotics such as vineyard information systems sensor units weather stations drones robotic harvesters social media videos digital labels and wine apps The alcohol industry is using these technologies to develop digital strategies and online tools for more efficient sales of wine This book analyzes the use of digital alcohol marketing the reasons for it the role of regulation and its social impact In particular malignant forms of alcohol marketing to youth are precisely described through exact case descriptions from the global milieu The author questions whether the loopholes in the legislation or inefficiency of self regulation have negative consequences that can no longer be prevented by public health care programs

When and how did the alcohol industry become so deeply interwoven in our lives that we mindlessly advertise and parade in its shadow on social media and that we increasingly buy alcohol digitally for fun in innovative packaging and with strange ingredients combinations Dr Mojca Ramak's book peels back the layers of the alcohol industry's most obvious yet overlooked marketing tactics It also reveals the sluggishness of preventive and curative efforts as well as legal or self regulatory measures at keeping up with the alcohol industry's use of technology Nadja Furlan, Principal Research Associate and Professor of Religious Studies Science and Research Centre of Koper Slovenia

The Modern Cook Charles Elmé Francatelli, 1880 **Journal of the Royal Society of Arts**, 1874 *Wine Drinking Culture in France* Marion Demossier, 2010-07-15 This book provides a new interpretation of the relationship between consumption drinking culture memory and cultural identity in an age of rapid political and economic change Using France as a case study it explores the construction of a national drinking culture the myths symbols and practices surrounding it and then through a multisited ethnography of wine consumption demonstrates how that culture is in the process of being transformed Wine drinking culture in France has traditionally been a source of pride for the French and in an age of concerns about the dangers of binge drinking a major cause of jealousy for the British Wine drinking and the culture associated with it are for many an essential part of what it means to be French but they are also part of a national construction Described by some as a national product or as a totem drink wine and its attendant cultures supposedly characterise Frenchness in much the same way as being born in France fighting for liberty or speaking French Yet this traditional picture is now being challenged by economic social and political forces that have transformed consumption patterns and led to the fragmentation of wine drinking culture The aim of this book is to provide an original account of the various causes of the long term decline in alcohol consumption and of the emergence of a new wine drinking culture since the 1970s and to analyse its relationship to national and regional identity

Wine Maynard A. Amerine, Vernon L. Singleton, 1972 **The Wines of the Bible** A. M. Wilson, 1877 Having been a teetotaler for more than thirty years the author's personal habits associations and sympathies have all been in favor of the unfermented theory but the facts encountered in the present investigation have constrained him reluctantly to conclude that so far as the wines of the ancients are concerned unfermented wine is a myth Preface [Travel Guide of Guizhou](#) Ni Hao,
