The serial number should always be furnished when ordering parts for the machine or when corresponding with the distributor or factory concerning the machine. Providing the serial number is the only way of ensuring the correct parts and/or information can be furnished.

In the event the serial number plate is not readable, a number is stamped on the same reading frame which can be used to identify the machine. The number is stamped just below the brand name cellular technology logo.

The serial number is stamped on the machine identification plate. The machine identification plate is located in the operator's seat on the right side and across the right console.
