Small Voices And Great Trumpets Minorities The Media:

Small Voices & Great Trumpets Bernard Rubin, 1980 **The Media in Black and White** Everette Dennis, 2020-03-24

The media's treatment of and interaction with race like race itself is one of the most sensitive areas in American society. Whether in its coverage and treatment of racial matters or racial connections inside media organizations themselves, mass communication is deeply involved with race. *The Media in Black and White* brings together twenty journalists and scholars of various racial backgrounds to grapple with a controversial issue: the role that media industries from advertising to newspapers to the information superhighway play in helping Americans understand race. Contributors include Ellis Cose, a contributing editor for *Newsweek*; Manning Marable, chairman of Columbia University's African American Research Center; William Wong, a columnist for the *Oakland Tribune*; Lisa Penaloza, a University of Illinois professor; and Melita Marie Garza, a *Chicago Tribune* reporter. Among the topics discussed are the quality of reporting on immigrant issues; how sensationalism may be deepening the chasm of misunderstanding between the races; how the coverage of America's drug wars has been marked by racism; and whether politically correct language is interfering with coverage of vital issues and problems. The contributors of *The Media in Black and White* hope to broaden the narrow vision of the United States and the world beyond with their contributions to the debate over race and the media. The commentary found in this important work will be of interest to sociologists, communication specialists, and black studies scholars. *Cultural Diversity and the U.S. Media* Yahya R. Kamalipour, Theresa Carilli, 1998-09-11

This book provides rich and detailed accounts of how the media filters racial/ethnic identity through economic or sensationalized perspectives in newspapers, films, television, and radio. By exploring media descriptions of various racial/ethnic groups, *Cultural Diversity and the U.S. Media* provides opportunities to discover, debate, and discuss issues surrounding race, ethnicity, and the role of the media in American society. **Blacks and the Media** Michael Andrew Williams, 1990 **The Arab Public Sphere in Israel** Amal Jamal, 2009-10-16

In this pathbreaking study, Amal Jamal analyzes the consumption of media by Arab citizens of Israel as a type of communicative behavior and a form of political action. Drawing on extensive public opinion survey data, he describes perceptions and use of media ranging from Arabic Israeli newspapers to satellite television broadcasts from throughout the Middle East. By participating in this semi-autonomous Arab public sphere, the average Arab citizen can connect with a wider Arab world beyond the boundaries of the Israeli state. Jamal shows how media aid the community's ability to resist the state's domination, protect its Palestinian national identity, and promote its civic status. **Black People and the Media** Joe Harte, 1988 **Race, Myth and the News** Christopher P. Campbell, 1995-02-28

How are the perceptions of the majority culture the preferred readings reflected in television news? How do they reinforce stereotyped attitudes on race? This interpretive analysis presents evidence of racism, including underrepresentation within news texts. The author examines the values, traditions, and practices of news production that often unconsciously serve to maintain the alienation of racial groups in society. While the focus is on local television news,

in the United States Race Myth and the News has a broad relevance to studies of culture and race **The Royal Television Society Journal** ,1982 **Minorities and Media** Clint C. Wilson,Félix Gutiérrez,1985-07 Minorities and Media is a highly readable analysis of the ways in which the mass media have portrayed minorities in the United States since the late nineteenth century The book examines the ways in which the media have reinforced racial stereotypes and provides an analysis of current trends which reflect the growing recognition of ethnic diversity The authors conclude that the increasing racial diversity of the United States and continued audience segmentation will reduce the role of communication media in transmitting and developing the common culture of American society **When Information Counts** Bernard Rubin,1985

Mass Communication, an Introduction John R. Bittner,1989 **The Gulf War** ,1992 *Third World Countries at WARC* Nolan A. Bowie,1980 *Women in Mass Communication* Pamela J. Creedon,1993-10-19 This landmark volume has been considerably expanded and updated in this new edition With particular emphasis on race and culture leading scholars in the field provide compelling analyses of the ways in which feminist theory and perspectives have been incorporated into mass communication They examine the status of women in the mass communication industries from sporadic breakthroughs to the continuing sexism and economic inequities that pervade the profession **Accession List** Canadian Radio-Television and Telecommunications Commission.
