Developing Financial Leadership in Small-Medium Businesses Stewart Barnes,Malcolm Prowle,2025-03-12 Many small medium enterprises SMEs are very

small organisations comprising mainly single person and micro businesses but in the United Kingdom there are around 250 000 small medium businesses SMBs which are substantial businesses with turnovers of millions or tens of millions of pounds A key requirement for thriving SMBs is effective leadership throughout the organisation One crucial aspect which is often overlooked is that of financial leadership Financial management in SMBs is often seen as a technique based activity whereby finance staff have a limited role preparing annual financial accounts and disseminating financial information to key individuals in the organisation They may act reactively by responding to requests for specific financial information On the other hand strong financial leadership is proactive constructive and innovative and plays a critical role in ensuring that organisations stay financially adaptable and can build resilience and sustainability in today s fierce market The most effective financial leaders have a sophisticated and thorough understanding of their organisation s financial health and they make decisions grounded in financial realities to use that information in their communication to demonstrate the strategic connection between money mission and purpose This research volume asserts that understanding the importance of utilising robust financial management approaches and financial information in making business decisions and assessing business performance is the key This is especially relevant for SMBs as they can have a significant influence on countries economies It will therefore be of interest to researchers academics practitioners and advanced students in the fields of leadership financial management entrepreneurship and strategy *Open Innovation and Entrepreneurship* Gadaf Rexhepi, Robert D.

Hisrich, Veland Ramadani, 2019-05-31 This book combines theoretical perspectives and empirical evidence on open innovation and entrepreneurship as two essential ways to help entrepreneurial businesses grow and achieve a competitive advantage Discussing essential issues at the nexus of entrepreneurship and open innovation such as enterprise growth creating competitive advantage implementation of open innovation and the overall corporate strategy the respective contributions demonstrate how open innovation can provide a vital impetus to the growth of entrepreneurial businesses and pave a new way to achieving a competitive edge

**Intangible Values in Financial Accounting and Reporting** Stephan Grüber, 2014-07-18 Academics and practitioners argue that intangible values have become significant value drivers of today s economy Major production inputs no longer comprise of property plant and equipment but rather of brands knowledge and other technological innovation Based on this notion information on such phenomena is supposedly crucial for existing and potential capital providers in making decisions whether to allocate resources to a company This thesis examines the information use and needs of financial analysts with respect to intangible values The purpose is to shed light on the usefulness of such information from the perspective of one of the primary user groups of IFRSs
