Smokeys Big Day:

Smokey Jack and the Colonel Jon Blackwell, 2018-06-18 Life is sweet when you're a young Jack Russell pup still a few months shy of your first birthday And Smokey Jack loves his new life with his momma and the Colonel the kindly old couple who recently adopted him even though he fears he will not live up to his Colonel's high standards something Smokey wants more than anything in the whole world But their happy existence is interrupted when a mysterious blue mist engulfs Smokey during his first hunt with the Colonel a mist accompanied by the unnatural smelling Not fox and a disembodied voice singing a childish tune Leading to the night Smokey gets caught in a flash flood with Jasmine the little girl who lives down the street from him But the trouble really starts when Jasmine's older sister Lily dives into the quickly deepening current of Huntsman Creek after them The Colonel can only watch as his young friends are washed into the floodplain's drainage pipe leading under the street And in their desperate struggle for survival the trio find themselves washed up against a strange convex object shaped much like an eye housing an evil that should have been left alone **Little Joe** Beverly Jones

Copeland, 2018-09-19 Joe was born in San Antonio Texas on the twenty fourth of September 1930 to his parents Joe W and Margaret Swift Copeland He was a Texan through and through and he grew up doing the things that were expected of a child on a large Texas ranch things that today seem unbelievable for children to do In the already hostile environment of the west Texas desert the Great Depression was extremely hard on the ranchers and farmers in this region and this is where Joe's story begins He grew up in a time when life was simpler ranch life was challenging and people appreciated the cherished blessings of many friends and large families **The Twilight Forest** Gary Ferguson, 2025-10-16

With their towering cinnamon colored trunks and dusky green canopies ponderosa pine has long been a charismatic icon of the American West Yet a quiet unraveling has begun in the past decade in a vast area from Santa Fe to the Sierras more than two hundred million ponderosa have died While some trees will survive in cooler places scientists estimate that by mid century less than five percent of the ponderosa in the American Southwest may remain As the very character of this vast region shifts what will be left behind And how can we come to terms with such profound loss In *The Twilight Forest* Gary Ferguson brings readers on an expansive journey through the ponderosa forests of the Southwest both to mourn and to celebrate the forests that nurtured him In warm and luminous storytelling Ferguson weaves together the human and natural history of ponderosa from its march across the West more than 10 000 years ago to centuries of artists inspired by its dazzling stature and shady passageways Both wildfire and climate change are constant presences on this journey Fire is necessary for healthy forests but has turned deadly while climate change stresses even the hardiest beings of the natural world Yet the story of ponderosa reminds us that loss can be a gateway to connection to nature and each other While it is tempting to hide from the changes around us Ferguson offers a healing approach to pick even one of these thousand doors of loss pull it open and walk through The resulting journey is a life affirming tribute to one of America's most cherished wild
