The Key Papers in the Development of Coding Theory Elwyn R. Berlekamp, 1974 *Key Papers in the Development of Coding Theory* Elwyn R. Berlekamp (Comp), 1974 Codes, Cryptology and Curves with Computer Algebra Ruud Pellikaan, Xin-Wen Wu, Stanislav Bulygin, Relinde Jurrius, 2017-11-02 Graduate level introduction to error correcting codes which are used to protect digital data and applied in public key cryptosystems **Basil Bernstein, Code Theory, and Education** Parlo Singh, 2020-11-25 Over a career spanning forty years Basil Bernstein produced theoretical models about the workings of educational systems and how these systems produce social relations of inequality. He was considered by many to be a radical scholar whose work generated enormous controversies. One such controversy was around code theory specifically restricted and elaborated codes which came to signify for some scholars the deficit views of those living in poverty. Bernstein weathered the intensity of the debates around these ideas spending much of his career vehemently challenging deficit portrayals of code theory reworking and extending his theoretical corpus with the development of ideas around pedagogic discourse and identity. The past decade has witnessed a revival of interest in Bernstein's theoretical ideas across fields as diverse as policy studies sociology of education curriculum and pedagogy studies anthropology linguistics and social and cultural psychology. This book contributes to the revival of Bernstein's work by examining specifically some women's contribution to this theoretical corpus. The contributions traverse a number of disciplines building a rich tapestry of concepts to think about education systems and the formation of social minds. Significantly the book tackles the complex matter of how to empirically work with Bernstein's ideas and so contribute to debates about the nexus between theory and methods. The chapters in this book were originally published as articles in Taylor Francis journals or previously published in Taylor Francis books Biographical Memoirs National Academy of Sciences, 2009-11-20 Biographic Memoirs Volume 91 contains the biographies of deceased members of the National Academy of Sciences and bibliographies of their published works.
