Slow Suicide:

Rational Suicide, Irrational Laws Susan Stefan, 2016-02-25 When should we try to prevent suicide Should it be facilitated for some people in some circumstances For the last forty years law and policy on suicide have followed two separate and distinct tracks laws aimed at preventing suicide and increasingly laws aimed at facilitating it In Rational Suicide Irrational Laws legal scholar Susan Stefan argues that these laws co exist because they are based on two radically disparate conceptions of the would be suicide This is the first book that unifies policies and laws including constitutional law criminal law malpractice law and civil commitment law toward people who want to end their lives Based on the author s expert understanding of mental health and legal systems analysis of related national and international laws and policy and surveys and interviews with more than 300 suicide attempt survivors doctors lawyers and mental health professionals Rational Suicide Irrational Laws exposes the counterproductive nature of current policies and laws about suicide Stefan proposes and defends specific reforms including increased protection of mental health professionals from liability increased protection of suicidal people from coercive interventions reframing medical involvement in assisted suicide and focusing on approaches to suicidal people that help them rather than assuming suicidality is always a symptom of mental illness Stefan compares policies and laws in different states in the U S and examines the policies and laws of other countries in Europe Asia and the Americas including the 2015 legalization of assisted suicide in Canada The book includes model statutes seven in depth studies of people whose cases presented profound ethical legal and policy dilemmas and over a thousand cases interpreting rights and responsibilities relating to suicide especially in the area of psychiatric malpractice

Political Theology on Edge Clayton Crockett, Catherine Keller, 2021-12-07 In Political Theology on Edge the discourse of political theology is seen as situated on an edge that is on the edge of a world that is grappling with global warming a brutal form of neoliberal capitalism protests against racism and police brutality and the COVID 19 pandemic This edge is also a form of eschatology that forces us to imagine new ways of being religious and political in our cohabitation of a fragile and shared planet Each of the essays in this volume attends to how climate change and our ecological crises intersect and interact with more traditional themes of political theology While the tradition of political theology is often associated with philosophical responses to the work of Carl Schmitt and the critical attempts to disengage religion from his rightwing politics the contributors to this volume are informed by Schmitt but not limited to his perspectives They engage and transform political theology from the standpoint of climate change the politics of race and non Christian political theologies including Islam and Sikhism Important themes include the Anthropocene ecology capitalism sovereignty Black Lives Matter affect theory continental philosophy destruction and suicide This book features world renowned scholars and emerging voices that together open up the tradition of political theology to new ideas and new ways of thinking Contributors Gil Anidjar Balbinder Singh Bhogal J Cameron Carter William E Connolly Kelly Brown Douglas Seth Gaiters Lisa Gasson Gardner Winfred Goodwin Lawrence Hillis Mehmet

Foreign Bodies Eating Disorders Childhood Sexual Abuse and Trauma Informed Treatment addresses the association between eating disorders and childhood sexual abuse proposing a new way of treating those suffering from eating disorders who were sexually abused as children Based on testimonies of survivors of abuse who subsequently developed eating disorders it offers a new form of diagnosis and treatment arguing that the eating disorder field often ignores the traumatic sources of eating disorders leading to some treatment programs not being commensurate and at times conflicting with the principles of childhood sexual abuse treatment The case studies used to highlight the link between childhood sexual abuse and eating disorders are presented from the perspective of the women involved in their own words Their voices are supplemented by Gur s own stance as a clinician specializing in the treatment of sexual abuse and PTSD The book is divided into three parts the first deals with eating disorders childhood sexual abuse and the association between them the second examines the treatment of eating disorders and childhood sexual abuse and the third offers a new form of diagnosis and treatment for eating disorders This book will be of great interest to researchers and postgraduate students in the eating disorder field of psychotherapy psychology or psychiatry plus those studying the treatment of trauma It will also be of interest to clinical dieticians psychologists social workers doctors nurses eating disorder specialists and policymakers in the mental health field as well as eating disorders sufferers and those who care for them **Why Suicide?** Eric
