Smithsonian, 2002-04-17 This fully illustrated guide to the world's most visited aviation and space museum is both an indispensable companion for visitors and a detailed history in itself of humanity's quest for flight. The National Air and Space Museum NASM houses the world's greatest collection of historic aircraft and spacecraft plus an amazing assortment of other historic objects. Many fascinating items from the twenty-three galleries and two off-site facilities are presented here in 197 full-color photographs and are accompanied by their equally intriguing stories. This gallery-by-gallery tour presents many milestones of aviation and spaceflight such as the Wright Flyer, Chuck Yeager's Bell X-1 and the spacesuits worn by Neil Armstrong and Buzz Aldrin. Some of the lesser-known but equally captivating treasures illustrated here include soda cans specially engineered for space use, Otto Lilienthal's 1894 glider which inspired the Wright brothers and a sobering American flag recovered from the wreckage of the Challenger. Each gallery section concludes helpfully with notes about smaller objects and displays that are not to be missed. The final two sections are devoted to the museum's sprawling thirty-building Paul E. Garber Preservation, Restoration and Storage Facility in Maryland where three-hour tours are available by reservation and the soon-to-be-opened Steven F. Udvar-Hazy Center at Dulles Airport. When completed this facility will have enough space to finally display the Enola Gay, the first space shuttle, the Enterprise and the fastest jet in the world, the ultrasleek SR-71 Blackbird. Certainly offering an enriched experience for any NASM visitor, this sturdy, richly detailed guide is also an inspiring tribute to the human spirit. The Book of Flight Judith E. Rinard, 2001 Book of Flight Judith E. Rinard, 2007 A guide to the world of flight documents the milestones in aviation history that changed the world from the development of ballooning to the mission to Mars. The Book of Flight Judith E.
