

The background of the cover is a dark field filled with a dense network of fine, green, thread-like structures, likely representing cytoskeletal filaments. Two prominent, larger structures are visible in the center, each with a bright blue/purple core and a surrounding green halo, possibly representing nuclei or specific organelles within cells.

**SCHALM'S VETERINARY HEMATOLOGY** An updated guide to veterinary hematology with expanded coverage on a variety of topics. The revised seventh edition of Schalm's Veterinary Hematology is updated to provide a comprehensive review of all topics related to disorders of the blood in animals. Designed as a gold standard reference, this text covers a wide range of species in both confined and free range populations, reflects the most recent trends in hematology diagnostics, and discusses recent advances in traditional techniques. Edited and written by an international team of experts in the field, the book represents an accessible yet in-depth resource for information on veterinary hematology. The new edition includes a hemolymphatic tissue section that covers current understanding of basic science, and the species-specific hematology section is further expanded from previous editions. New chapters address emerging topics in hematology, and existing chapters have been revised and rearranged to improve readability and simplify access to the material. This seventh edition updates the most complete reference on veterinary hematology across species. Contains a new section on basic biology of hemolymphatic tissues. Expands coverage of species-specific hematology. Presents new and emerging topics in blood disorders and diagnostic techniques. Features a reorganized contents list for an integrated, easy-to-use reference. Written for veterinary clinical pathologists and residents, diagnostic laboratory staff, internists, and specialists. Schalm's Veterinary Hematology is the most comprehensive and up-to-date reference on the topic.
