Sociology has been my life s work for several decades In the classroom and in the pages of my textbooks I have tried to spark students interest in the discipline by showing them its real life implications My aim has been to convince students that sociology is more than just another academic pursuit an exercise in scholarship for the sake of scholarship Sociology illuminates the world around us our families schools neighborhoods and other familiar institutions we have lived with all our lives It puts into larger perspective our culture and our socialization the way we come to be the way we are Sociology makes us think deeply about the divide between ourselves and those of different races classes and ethnicities It forces us to recognize the effects of power technological advances electronic media and the increasingly rapid process of social change on our own lives Sociology matters to you me and everyone with a stake in the society we live in ***Sociological Abstracts*** ,2004-04 ***The Florida Journal of Anthropology*** ,1991
