[Breaking Down Silos for Equity, Diversity, and Inclusion \(EDI\)](#) Stephanie L. Burrell, Storms, Sarah K. Donovan, Theodora P. Williams, 2020-02-19 Equity, diversity, and inclusion (EDI) goals have traditionally been seen as either an effort to be managed by the administration or as something a faculty member could choose or not to focus on. In the twenty first century EDI goals are increasingly front and center across disciplines as educators prepare students for success in a diverse world. It is in this milieu that this book was written. Each chapter in this book is designed for use by instructors and administrators in higher

education who believe that the goals of EDI should be integrated into the classroom experience The chapters are grouped around five central themes that challenge the structure of a traditional classroom in order to promote goals related to EDI faculty collaboration creative approaches to faculty and student resistance to EDI goals institution wide initiatives community engagement and the use of first person autobiography and storytelling in the classroom

*Restoring the Classic in Sociology* Alan R. How, 2016-06-30 This book demonstrates that classical sociology is essential to cutting edge debates in the contemporary social sciences It has become fashionable to play down the importance of the classic text in sociology and critique the ideas of Weber Marx and Durkheim as ideologically outdated The author mounts a strong challenge to this view criticising such notions as de traditionalization structuration and postmodernism emphasizing instead the relevance of habit re traditionalization and social integration across time Arguing that sociology has eliminated the importance of the past history and tradition in favour of the transience of the present he revisits the Habermas Gadamer debate to argue that tradition is the ground of the classic and the classic something that must prove itself anew in subsequent situations He uses the work of Durkheim Simmel and Weber to illustrate this process Making a distinction between classic and canon which parallels that between agency and structure he allows the reader to appreciate the separate value of both This major contribution to the field is essential reading for scholars and students of sociology and social theory
