Affirming Students' Right to Their Own Language Jerrie Cobb Scott, Dolores Y. Straker, Laurie Katz, 2009-06-02 A Co publication of the National Council of Teachers of English and Routledge This landmark volume responds to the call to attend to the unfinished pedagogical business of the NCTE Conference on College Composition and Communication 1974 Students Right to Their Own Language resolution Chronicling the interplay between legislated litigated education policies and language and literacy teaching in diverse classrooms it presents exemplary research based practices that maximize students learning by utilizing their home based cultural language and literacy practices to help them meet school expectations

How Students Come to Be, Know, and Do Leslie Rupert Herrenkohl, Véronique Mertl, 2010-08-30 Studies of learning are too frequently conceptualized only in terms of knowledge development Yet it is vital to pay close attention to the social and emotional aspects of learning in order to understand why and how it occurs How Students Come to Be Know and Do builds a theoretical argument for and a methodological approach to studying learning in a holistic way The authors provide examples of urban fourth graders from diverse cultural and linguistic backgrounds studying science as a way to illustrate how this model contributes to a more complete and complex understanding of learning in school settings What makes this book unique is its insistence that to fully understand human learning we have to consider the affective volitional processes of learning along with the more familiar emphasis on knowledge and skills **'You Know the Fair Rule'** Bill Rogers, 1991 Focusing on discipline in the school classroom this provides a range of strategies and practical skills to use in order to motivate and guide pupils It looks at the difficulties of dealing with poor behaviour and shows how to make this job easier Aimed at primary and secondary staff *The Parliamentary Debates* Great Britain. ,1899 **Is Student-Right-to-Know All You Should Know?** Thomas Bailey,Juan Carlos Calcagno,Davis Jenkins,Timothy Leinbach,Gregory Kienzl,2005 Over the last decade policymakers educators and researchers have increasingly sought to understand community college policies and practices that promote students success This effort has been partly driven by an increased emphasis on outcome accountability but it has also promoted a productive discussion about improving institutional performance The research reported here has two related goals One goal is to work towards strengthening the ability to assess and compare institutional performance We thus have developed a model that can be used to adjust simple graduation rates for institutional characteristics such as student composition college resources size and location all of which might influence those rates Our long term goal is to understand how to improve student outcomes so the paper also uses the model to measure the effect of those institutional characteristics on graduation rates We use data from the Integrated Postsecondary Education Data System IPEDS surveys applying a weighted least squares procedure for grouped data to estimate an institutional completion rates model This analysis confirms several hypotheses about institutional determinants of graduation rates at community colleges Our results indicate a consistent negative relationship between enrollment size and completion Additionally colleges with high shares of minority students part time students and women have lower graduation rates A final significant finding among institutional characteristics is that greater instructional expenditures are related to a greater likelihood of graduation The method developed here can be used to better assess the performance of community colleges Contains 1 figure and 3 tables **The Crisis**,1991-10 The Crisis founded by W E B Du Bois as the official publication of the NAACP is a journal of civil rights history politics and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color For nearly 100 years The Crisis has been the magazine of opinion and thought leaders decision makers peacemakers and justice seekers It has chronicled informed educated entertained and in many instances set the economic political and social agenda for our nation and its multi ethnic citizens **Florida State University Law Review** Florida State University.
