Studies In Economic Anthropology:

Research in Economic Anthropology George Dalton, Barry L. Isaac, 1981 **Themes in Economic Anthropology** Raymond Firth, 2013-11-05 The main focus of the volume the processes of choice and decision making in different economic systems offers exceptional scope for the convergence of economic and anthropological perspectives It concentrates on transactions that both express and influence social relationships and values Covering a wide geographic area there are specific studies on societies in Equatorial Africa Colombia South India and the Balkans First published in 1967 A Research Agenda for Economic Anthropology James G. Carrier, 2019 The financial crisis and its economic and political aftermath have changed the ways that many anthropologists approach economic activities institutions and systems This insightful volume presents important elements of this change With topics ranging from the relationship of states and markets to the ways that anthropologists political preferences and assumptions harm their work the book presents cogent statements by younger and established scholars of how existing research areas can be extended and the new avenues that ought to be pursued **Economies And Cultures** Richard R Wilk, 1996-10-07 This text is the first synthesis of modern economic anthropology for advanced undergraduates and beginning graduate students Tracing the history of the dialogue between anthropology and economics Wi *The Social Dynamics of Economic Innovation* J. P. M. van den Breemer, H. TH. van der Pas, H. J. Tieleman, 1991 **Production and Autonomy** John William Bennett, John Richard Bowen, 1988 *Economy and Ritual* Stephen Gudeman, Chris Hann, 2015-02-01 According to accepted wisdom rational practices and ritual action are opposed Rituals drain wealth from capital investment and draw on a mode of thought different from practical ideas The studies in this volume contest this view Comparative historical and contemporary the six ethnographies extend from Macedonia to Kyrgyzstan Each one illuminates the economic and ritual changes in an area as it emerged from socialism and re entered market society Cutting against the idea that economy only means markets and that market action exhausts the meaning of economy the studies show that much of what is critical for a people s economic life takes place outside markets and hinges on ritual understood as the negation of the everyday world of economising **Studies in Economic Anthropology** George Dalton, 1971 A New Economic Anthropology François Régis Mahieu, 2023-03-10 Traditionally economic anthropology has been studied by sociologists anthropologists and philosophers seeking to highlight the social foundations of economic action Meanwhile anthropological questions have remained largely untreated in economics despite the prominence given to the individual in microeconomics And there is very little in the way of dialogue between the two sides This book argues for a new economic anthropology which goes beyond the conflict of economics and anthropology to show the complementarity of the two approaches Economics needs to go beyond the stage of homo oeconomicus and be open to broader ideas about the person Equally anthropology can be enriched through the methods and models of economic theory This new economic anthropology goes beyond a simple observation of societies It is new because it introduces the

responsible person with a wider range of characteristics in particular vulnerability and suffering as a subject of economics It is a particular interpretation of economic anthropology calling for a broadening of the subject moving from the individual to the person range of values admission of negative values for altruism social capital responsibility and disciplinary references Through this approach both economics and anthropology can be enriched This book will be of great interest to those working in the fields of economics anthropology philosophy and development studies Advanced Introduction to Economic Anthropology Peter D. Little, 2023-11-03 Expertly navigating the interdisciplinary field of economic anthropology Peter D Little illustrates how an anthropological perspective can deepen understandings of customary and global markets different types of money diversified livelihoods of the poor gendered and racialized labor climate change and other global issues By questioning common dichotomies such as the informal versus formal sectors and customary versus modern institutions the book uncovers those hidden connections power relations and economic actors and processes that underpin real economies throughout the world **A Handbook of Economic Anthropology** Carrier, James G., 2022-05-13 This timely Research Agenda examines the ways in which public private partnerships PPPs in infrastructure continue to excite policy makers governments research scholars and critics around the world It analyzes the PPP research journey to date and articulates the lessons learned as a result of the increasing interest in improving infrastructure governance Expert international contributors explore how PPP ideas have spread transferred and transformed and propose a range of future research directions Elgar Encyclopedia of Economic Anthropology Cristina Grasseni, Erik Bähre, Douglas R. Holmes, Coco Kanters, 2025-11-04 This Encyclopedia presents insights into societal change through the lens of economic anthropology Interdisciplinary in scope it outlines emerging themes in the field and explicitly connects theoretical debates to in depth empirical evidence This title contains one or more Open Access chapters *Themes in Economic Anthropology* Association of Social Anthropologists of the Commonwealth, St. Antony's College (University of Oxford), 1967 Includes contributions R W Firth Themes in economic anthropology a general comment L Joy One economists view of the relationship between economics and anthropology R Frankenberg Economic anthropology one anthropologists view P S Cohen Economic analysis and economic man some comments on a controversy M Douglas Primitive rationing a study in controlled exchange F Barth Economic spheres in Darfur L Joy An economic homologue of Barths presentation of economic spheres in Darfur S Ortiz The structure of decision making among Indians of Colombia S Epstein Productive efficiency and customary systems of rewards in rural south India L Baric Traditional groups and new economic opportunities in rural Yugoslavia material derived from A S A sponsored conference on economic anthropology held at Oxford June 1965 Research in economic anthropology : a research annual , 1987 **Economic Anthropology** Chris Hann, Keith Hart, 2011-03-28 This book is a new introduction to the history and practice of economic anthropology by two leading authors in the field They show that anthropologists have contributed to understanding the three great questions of modern economic history development socialism and one world

capitalism In doing so they connect economic anthropology to its roots in Western philosophy social theory and world history Up to the Second World War anthropologists tried and failed to interest economists in their exotic findings They then launched a vigorous debate over whether an approach taken from economics was appropriate to the study of non industrial economies Since the 1970s they have developed a critique of capitalism based on studying it at home as well as abroad The authors aim to rejuvenate economic anthropology as a humanistic project at a time when the global financial crisis has undermined confidence in free market economics They argue for the continued relevance of predecessors such as Marcel Mauss and Karl Polanyi while offering an incisive review of recent work in this field Economic Anthropology is an excellent introduction for social science students at all levels and it presents general readers with a challenging perspective on the world economy today Selected by Choice as a 2013 Outstanding Academic Title
