(*Classic Reprint*) Charles Whibley,2017-12-06 Excerpt from *Studies in Frankness* Though reticence was our first and heaviest punishment it did not come upon us without compensations The mere command that man should clothe his nakedness was sufficient to create the love of adornment and its attendant vanity So the manifold arts of dandyism and coquetry came into being and man by giving a separate colour to his life distinguished himself from the beasts who know neither ornament nor shame Then also was born sin then lawlessness which hitherto had recognised vice as little as virtue became law and parcelled out all the possible actions of mankind into right and wrong involving the pristine simplicity in unnumbered complications Modesty was invented to keep pace with restraint licence dogged the footsteps of obedience and the presence of death gave man his first lesson in the value of life And with sin was born humour which could not breathe in a perfect Paradise humour which sweetens misery with a laugh and sets our heaviest misfortunes in a just relation But that the new made sinners might not too loudly exult prudery was appointed the watch dog of humour and it is from the tangled combat of these opposites that wit and adventure joyousness and romance come forth victorious About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      *Studies in Frankness* Charles Whibley,2016-05-12 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant      **Literature** ,1898      **Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1897      **Literature** Henry Duff Traill,John Kendrick Bangs,1898      *Publishers' circular and general record of British and foreign literature, and booksellers' record* ,1897      *Boston University Studies in English* Boston University.

**Sex-education** Maurice A.

Bigelow,2022-09-04 Maurice A Bigelow s Sex education delineates a progressive understanding of human sexuality as it pertains to its significant role in social and personal development Rooted firmly in the early twentieth century this work stands as a pioneering venture into discussing what was then considered a taboo subject within the public sphere sex and its implications for human life Bigelow delivers his insights through a series of lectures employing a thoughtful and academic style that bridges the gap between sex education and broader societal wellness The literary style balances scientific objectivity with sensitive treatment of the topic ensuring the text s longevity as a piece of historical literature with enduring relevance As a biologist and an educator Maurice A Bigelow broke ground in the field of sexual education undoubtedly shaped by his academic background and the progressive attitudes of his era Bigelow s impetus to write Sex education was partially influenced by the cultural shifts of the early 1900s which saw a burgeoning awareness of sexual health and its impact on society His own professional experiences undoubtedly informed his balanced and factual approach to a subject that many in his field shied away from suggesting his deep commitment to education and enlightenment This edition from DigiCat Publishing affords contemporary readers the opportunity to rediscover a seminal work that contributed significantly to the understanding of sex education in a historical context Sex education is recommended for scholars of social science history and education as well as anyone interested in the origins and evolution of public discourse on human sexuality It offers a window into the societal attitudes of the past while prompting reflection on how these discussions have shaped current conversations around sex and education

In this volume a streamed school is studied in detail and parents responses are recorded Eleven plus is and has been under criticism but many children are selected by a seven plus because they are streamed into A B or C classes Few children escape the label once it is pinned on them less than six in one hundred change their stream The study shows that on a national sample the date on which a child is born irrespective of his ability affects his or her stream at the age of 7 and his results at eleven plus Finally ten streamed schools are compared academically and socially with ten unstreamed schools In the final chapters the author makes practical proposals by which primary schools could recognise and increase the flow of gifted children
