Harvard Studies in Classical Philology ,1891 **The Logical Syntax of Greek Mathematics** Fabio Acerbi,2021-06-21

The aim of this monograph is to describe Greek mathematics as a literary product studying its style from a logico syntactic point of view and setting parallels with logical and grammatical doctrines developed in antiquity In this way major philosophical themes such as the expression of mathematical generality and the selection of criteria of validity for arguments can be treated without anachronism Thus the book is of interest for both historians of ancient philosophy and specialists in Ancient Greek in addition to historians of mathematics This volume is divided into five parts ordered in decreasing size of the linguistic units involved The first part describes the three stylistic codes of Greek mathematics the second expounds in detail the mechanism of validation the third deals with the status of mathematical objects and the problem of mathematical generality the fourth analyzes the main features of the deductive machine i e the suprasentential logical system dictated by the traditional division of a mathematical proposition into enunciation setting out construction and proof and the fifth deals with the sentential logical system of a mathematical proposition with special emphasis on quantification modalities and connectors A number of complementary appendices are included as well The Word Order of the Gospel of Luke Ivan Shing Chung Kwong,2005-12-09 This work studies the word order of the Gospel of Luke and some of its prominent messages with consideration of systemic functional linguistic theories The first part of the work focuses on the relative positions of four constituents subject predicate complement and circumstantial adjunct of different types of Lukan clauses independent dependent infinitival participial and embedded clause The result gives some unmarked typical or common word order patterns and some marked word order patterns of all Lukan clauses The second part traces the foregrounded messages of the Gospel based on their related marked word order patterns incorporated with functional linguistic phenomena The result highlights the messages of Jesus disciples and his parents failure in understanding him Pilate s crime of handing over Jesus and Jesus predictions of his future sufferings and Peter s future failure JSNTS and Studies in New Testament Greek series

central Christ Hymn is tightly connected to the rest of Paul's argument. The hymn presents Christ as an epitome of the ideals of Greek and Roman virtue to support Paul's summoning his readers to a life of praiseworthy and exemplary civic conduct in 1 27. New or recently proposed translations are advanced for numerous words and phrases in e.g. 1 8 11 27 2 3 4 6 11 3 2 4 and a new non Stendahlian approach to Paul's boasting in 3 4 6 that is Christological rather than biographical is put forward
