

# SOCIAL CHANGE

Social change is defined by sociologists as alterations in the basic structures of society or a social group.

## APPROACHES

### Structural-functionalism

Social change should serve the best interests of society, with the goal of maintaining equilibrium and balance within the social system.

### Conflict Theory

Social change happens suddenly when conflict boils over, upending the status quo.

## EXAMPLE

### The Industrial Revolution

The Industrial Revolution was a period of significant social and economic change marked by the widespread development of new technologies, transportation and communication systems, and the growth of factories and mass production. Urbanization, labor rights, and women's rights took center stage.

*Education and Social Change* John L. Rury,2019-08-05 This brief interpretive history of American schooling focuses on the evolving relationship between education and social change Like its predecessors this new edition investigates the impact of social forces such as industrialization urbanization immigration and cultural conflict on the development of schools and other educational institutions It also examines the various ways that schools have contributed to social change particularly in enhancing the status and accomplishments of certain social groups and not others Detailed accounts of the experiences of women and minority groups in American history consider how their lives have been affected by education at key points in the past Updates to this edition A revised final chapter updated to include recent changes in educational politics finance policy and a shifting federal policy context Enhanced coverage and new conceptual frames for understanding the experiences of women and people of color in the midst of social change Edited throughout to update information and sources regarding the history of American education and related processes of social transformation in the nation's past

**Education and Social Change in China: Inequality in a Market Economy** Gerard A. Postiglione,2015-01-28 Market reform financial decentralization and economic globalization have greatly accentuated China's social and regional inequalities Education is expected to address these inequalities in a context of rapid social change including the rise of an urban middle class changed status of women resurgence of ethnic identities growing rural to urban migration and lingering poverty in remote areas But some argue that state policies have not sufficiently addressed

inequitable practices and that schools actually perpetuate and reproduce inequities giving rise to a new system of social stratification driven more by market forces than socialist principles. Featuring all original previously unpublished material this volume examines this argument through analysis of selected aspects of educational stratification in China during the reform era. Chapters focus on the new urban middle class poor rural residents the migrant population in urban areas rural girls and ethnic minorities. The contributors are established scholars in the field and they build a conceptual framework for assessing the degree to which China's educational reforms are inclusive equitable and integrative across social categories and groups.

*Development and Social Change* Philip McMichael, Heloise Weber, 2020-12-21 **Development and Social Change A Global Perspective** explains how development thinking and practice have shaped our world. It introduces students to four interconnected projects and how their dynamics contradictions and controversies have influenced development trajectories colonialism the development era the neoliberal globalization project and sustainable development. Authors Philip McMichael and Heloise Weber use case studies and examples to help describe a complex world in transition. Students are encouraged to see global development as a contested historical project. By showing how development stems from unequal power relationships between and among peoples and states often with planet threatening environmental outcomes it enables readers to reflect on the possibilities for more just social ecological and political relations.
