Studies in the Pragmatics of Discourse Teun A. Dijk, 2010-10-13 Keine ausführliche Beschreibung für Studies in the Pragmatics of Discourse verfügbare **Interdisciplinary Studies in Pragmatics, Culture and Society** Alessandro Capone, Jacob L. Mey, 2015-07-31 This volume is part of the series Pragmatics Philosophy and Psychology edited for Springer by Alessandro Capone. It is intended for an audience of undergraduate and graduate students as well as postgraduate and advanced researchers. This volume focuses on societal pragmatics. One of the main concerns of societal pragmatics is the world of language users. We are interested in the investigation of linguistic practices in the context of societal practices. Praxis is a term used in the Wittgensteinian and other traditions. It is clear that the world of users including their practices, their culture and their social aims has to be taken into account and seriously investigated when we deal with the pragmatics of language. It is not enough to discuss principles of language use solely in the guise of abstract theoretical tools. Consequently the present volume focuses explicitly on the interplay of abstract theoretical principles and the necessities imposed by societal contexts often requiring a more flexible use of such theoretical tools. The volume includes articles on pragmatics, politeness and anti-politeness, dialogue, joint utterances, discourse markers, pragmatics and the law, institutional discourse, critical discourse analysis, pragmatics and culture, cultural scripts, argumentation theory, connectives and argumentation language games, and psychotherapy slurs, the analysis of funerary rites as well as an authoritative chapter by Jacob L. Mey on societal pragmatics.

The Discourse Studies Reader Johannes Angermüller, Dominique Manguneau, Ruth Wodak, 2014-06-19 Discourse Studies is an interdisciplinary field studying the social production of meaning across the entire spectrum of the social sciences and humanities. Language in Literature Geoffrey Leech,2014-07-15 Over a period of over forty years Geoffrey Leech has made notable contributions to the field of literary stylistics using the interplay between linguistic form and literary function as a key to the mystery of how a text comes to be invested with artistic potential In this book seven earlier papers and articles read previously only by a restricted audience have been brought together with four new chapters the whole volume showing a continuity of approach across a period when all too often literary and linguistic studies have appeared to drift further apart Leech sets the concept of foregrounding also known as defamiliarization at the heart of the interplay between form and interpretation Through practical and insightful examination of how poems plays and prose works produce special meaning he counteracts the flight from the text that has characterized thinking about language and literature in the last thirty years when the response of the reader rather than the characteristics and meaning potential of the text itself have been given undue prominence The book provides an enlightening analysis of well known as well as less well known texts of great writers of the past including Keats Shelley Samuel Johnson Shaw Dylan Thomas and Virginia Woolf **Pragmatics** ,2008

Intercultural Relations Troy McConachy, Perry R. Hinton, 2023-02-09 The goal of fostering positive intercultural relations has taken on increased importance in a wide range of societal educational and business contexts. This has created growing demand for educational provision that raises awareness of the role of language, culture and psychological dynamics in processes of communication and rapport management. This volume, inspired by Helen Spencer Oatey's multidisciplinary approach to intercultural research, provides insights into the dynamic and negotiated nature of intercultural relations informed by current theory and research in linguistics, psychology and intercultural education. Written by an international group of prominent intercultural researchers, chapters demonstrate that intercultural interaction is highly dependent on the contextual expectations that individuals bring to communication, the social identities that are perceived to be relevant and how individuals position themselves and others as cultural beings. They show how cultural norms and social identities are negotiated in the micro context of interpersonal interaction and in the macro sociocultural context. The volume provides intercultural researchers and educators with multidisciplinary insights into how intercultural relationships are established, maintained and threatened.

Given the theoretical perspectives, methodological focus and analyses, the book will be of interest to those who study pragmatics, discourse analysis, second language acquisition, sociolinguistics, corpus linguistics and language variation.
