Studies in the Social History of Modern Egypt Gabriel Baer, 1966 **Studies in the Social History of Modern Egypt** Gabriel Baer, 1969 State and Society in Mid-Nineteenth-Century Egypt Ehud R. Toledano, 2003-02-13 Previous studies of nineteenth century Egypt have often been premature in identifying the existence of an independent nation state In a way which will permanently affect our view of Egyptian history this book argues that in the mid nineteenth century period Egypt was still an Ottoman province with a provincial Ottoman elite which was only gradually becoming Egyptian Part one discusses the creation of a dynastic order in Egypt especially under Abbas Pasa 1848 1854 and the formation of an Ottoman Egyptian ruling class Part two deals with the non elite groups the vast majority of Egypt's population A final chapter offers a convincing picture of the social and cultural life of the period in a way which has never before been attempted in a Middle East context The author's valuable knowledge of Ottoman and Arabic as well as European documents and his use of a wide variety of sources including police and court records chronicles and travel literature have enabled him to make an important contribution to a neglected period of Egyptian history and indeed to our understanding of other provinces and dependencies in the region Jewish and Greek Communities in Egypt Najat Abdulhaq, 2016-02-18 In the years following Nasser's rise to power the demographic landscape and the economy of Egypt underwent a profound change Related to the migration of diverse communities that had a distinguished role in Egyptian economy from Egypt these shifts have mostly been discussed in the light of postcolonial studies and the nationalisation policies in the wider region Najat Abdulhaq focuses instead on the role that these minorities had in the economy of pre Nasser Egypt and by giving special attention to the Jewish and Greek communities residing in Egypt investigates the dynamics of minorities involved in entrepreneurship and business With rigorous analysis of the types of companies that were set up Abdulhaq draws out the changes which were occurring in the political and social sphere at the time This book whilst primarily focused on the economic activities of these two minority communities has implications for an understanding analysis of the political the juridical the intellectual and the cultural trends at the time It thus offers vital analysis for those examining the economic history of Egypt as well as the political and cultural transformations of the twentieth century in the region **The Copts of Egypt** Vivian Ibrahim, 2010-12-02 The Copts of Egypt who consist of 10 15 per cent of the population have traditionally been viewed as a beleaguered and persecuted minority Using newly discovered Coptic archival sources Vivian Ibrahim presents a fresh and vivid alternative reading of the community during the twentieth century Avoiding the established portrayal of a monolithic entity headed by the Coptic Pope Ibrahim examines the multifaceted dimensions of the Coptic community assessing Coptic State relations on one hand and Coptic intra communal dimensions on the other Examining the impact of the British Occupation of Egypt on the making of new national identities she explores the emergence of a new politically active Coptic class highlighting popular Coptic grassroots mobilisation during the 1919 revolution through the case study of the Coptic priest Qommus Sergius She

discusses the centrality of the Copt and Wafdist Makram Ebeid on constitutional politics and his role as a whistleblower during the Black Book Affair Breaking with the portrayal of a defenceless community Ibrahim also reveals a strong Coptic response to the emergence and threats of Political Islam through the press She presents and analyses for the first time the unique satirical Ode to the Fezzed Shaykh aimed at Muslim Brotherhood leader Hassan al Banna In The Copts of Egypt Ibrahim also reveals fierce factionalism within the Coptic community in its struggle for modernisation Examining mass corruption in monasteries and in the run up to papal election campaigns she analyses the ways in which the Church used the Egyptian State to bolster its claim to political as well as religious representation over the community Through the establishment of benevolent and philanthropic societies Ibrahim argues that Coptic youths were amongst the first to negotiate a role for themselves in post revolutionary Egypt Adopting President Nasser s revolutionary rhetoric of tathir or cleansing Ibrahim examines how a group of Coptic youths abducted their Pope and forced through their own agenda of religious and political reform This book will be essential reading for scholars of the Coptic community and Middle East Studies Disciples of the State Kristin Fabbe,2019-03-28 Using historical process tracing this book examines state interaction with religious elites institutions and attachments in Egypt Greece and Turkey **A History Of The Modern Middle East** William L Cleveland,2000 This comprehensive work provides a penetrating analysis of modern Middle Eastern history from the Ottoman and Egyptian reforms through the challenge of Western imperialism to the Iranian Revolution and the Gulf War After introducing the reader to the region s history from the origins of Islam in the seventh century Cleveland focuses on the past two centuries of profound and often dramatic change While built around a framework of political history the book also carefully integrates social cultural and economic developments into a single carefully crafted account The revised and updated second edition of this benchmark text includes information on the Middle East since the close of the Cold War and a new section on civil society and Islamic politics in the 1990s *Routledge Handbook on Contemporary Egypt* Robert Springborg,Amr Adly,Anthony Gorman,Tamir Moustafa,Aisha Saad,Naomi Sakr,Sarah Smierciak,2021-03-30 Investigating key features of contemporary Egypt this volume includes Egypt s modern history politics economics the legal system environment and its media and modes of cultural expression It examines Egypt s capacities to meet developmental challenges ranging from responding to globalization and regional competition to generating sufficient economic growth and political inclusion to accommodate the interests and demands of a rapidly growing population The macrohistory of Egypt is complemented by the microhistories of specific institutions and processes that constitute separate sections in this handbook The chapters revolve around political economy it is shaped by the people and their abilities political and legal institutions organization of the economy natural and built environments and culture and communication Politics has been overwhelmingly authoritarian and coercive since the military seized power in 1952 consequently the contributions address both the causes and consequences of unbalanced civil military relations military rule and persisting authoritarianism in the
