Studies in Upplandic Runography Claiborne W. Thompson, 1975-01-01 *Studies in Upplandic Runography* is a detailed treatment of the runic inscriptions from the province of Uppland Sweden where runic art reached a high point in A D 1200 and where runic inscriptions are most numerous Most of the runic monuments discussed are from the eleventh century an important period when Sweden was making the transition from paganism to Christianity The names of nearly fifty rune carvers runographers professional and amateur are known However many of the inscriptions were left unsigned Claiborne Thompson examines the major problem of how an unsigned inscription is attributed to a known carver Since each carver had a distinctive style which must be delineated the book contains an exhaustive survey of the norms of Upplandic runography In order to match the inscriptions with their carvers Thompson analyzes the entire corpus of inscriptions from Uppland their formation the artistic designs they bear the shapes of the runes on them the orthography and language on them and the manner in which they were carved Thompson then establishes a set of criteria for determining the authorship of a runic monument stressing rune forms All of the criteria are used in an extensive discussion of the carvings of Asmund Karasun an interesting and influential carver from the first half of the eleventh century In addition Thompson s review of research describes scholarly interest in the problems of runography beginning in the early seventeenth century The book includes an introductory sketch of the cultural background of Uppland and relates the runic tradition to historical and cultural traditions in eleventh century Sweden *The Grove Encyclopedia of Medieval Art and Architecture* Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated *Grove Dictionary of Art* and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture
