Studies Of Christianity:

Studies of Christianity James Martineau, 2016-12-14 We have called this volume Studies of Christianity simply as a convenient indication of the general character of its contents In justice to the author it should be borne in mind that the separate papers were prepared to meet various occasions without a suspicion that they would ever be brought together to form a book Of course they do not express his complete views of the mighty subject which they fragmentarily treat The relative order and rank of his convictions the interpretation of Christianity from its inner side appear much better in his Endeavors after the Christian Life by far the richest and noblest series of sermons in the English language Still a kind of unity pervades the different pieces composing this collection One Christ like strain of sentiment breathes through them all The same consecrating fealty to truth presides over them all The same grand outline of principles and unvarying standard of judgment are constantly evident The same marvellous acumen breadth of learning and exquisite culture everywhere appear Each article is more or less directly an illustration of Christianity as something moral spiritual vital dynamic to be practically assimilated by the soul in distinction from the common exposition of it as something sacerdotal dogmatic formal forensic once enacted and now to be mimetically observed The energetic patience of labor the detersive intellect the unalloyed devoutness of spirit the telescopic range both of faculty and equipment revealed even in these wayside products awaken in us an unappeasable desire for a more purposed and systematic work from the same mind now in its fullest maturity In the mean time we will express our grateful appreciation of the contributions already furnished by giving them further circulation assured that no truly pious and intelligent person free from bigotry and shackles can peruse them without receiving equal measures of delight and profit Mr Martineau is so thoroughly acquainted with the processes and results of spiritual experience with the sciences of nature and with the whole realm of metaphysical philosophy and his own wealthy faculties are so tenacious in their activity and freshness that every subject he touches receives novelty light and ornament He is emphatically a teacher for the teachers a greater guide and master for the common guides and masters Traversing the whole domain of human contemplation with the defining lines of analysis clothing the severe materials of science with the colors of sthetic art he sheds on every theme the illumination of intellectual genius and transfuses every thought with the distinctive sentiments of piety Thus is afforded that rarest of all spectacles and the one now most needed by the cultivated religious world of a man who is greatly endowed at once as philosopher poet and Christian and who with simultaneous earnestness in each capacity is devoted by the whole labors of his life to the instruction of mankind William R Algeria CONTENTS

Clutton-Brock,2015-07-06 Excerpt from Studies in Christianity I am often told by my friends that Christianity is nothing but a set of statements about supernatural history which no one now can honestly believe When I deny this they ask me what Christianity is and if I try to tell them they reply That is not Christianity at all but certain beliefs which were held by men before Christ was born and may be held by them after his name has been forgotten But all the while I am convinced that there is a body of belief not concerned with supernatural history which is Christian that it began with the teaching of Christ as Platonism began with the teaching of Plato that it has been enlarged and enriched with the experience of nineteen centuries and yet has remained itself I am not anxious to prove the originality of Christ in detail It may be that he said no single thing which had not been said before him The originality of a great teacher consists not in particular sayings or doings but in his power of giving life to an idea so that it continues to live in other men s minds and is enriched with other men s thought The greatest ideas are not those which remain peculiar to their authors About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **An Introduction to Christianity** Linda Woodhead,2004-09-02 An Introduction to Christianity examines the key figures events and ideas of two thousand years of Christian history and places them in context It considers the religion in its material as well as its spiritual dimensions and explores its interactions with wider society such as money politics force gender and the family and non Christian cultures and societies This Introduction places particular focus on the ways in which Christianity has understood embodied and related to power Comprehensive and accessible this book will appeal to the student and general reader *The Bloomsbury Handbook to Studying Christians* George D.
