The aim in compiling this collection has been to bring together new papers and papers that were previously only available in informal duplicated form or in comparatively inaccessible publications. Studies in Pure Natural Phonology and Related Topics Jean-Pierre Angenot, 1981

The Oxford History of Phonology B. Elan Dresher, Harry van der Hulst, 2022-03-10. This volume is the first to provide an up to date and comprehensive history of phonology from the earliest known examples of phonological thinking through the rise of phonology as a field in the twentieth century and up to the most recent advances. The volume is divided into five parts. Part I offers an account of writing systems along with chapters exploring the great ancient and medieval intellectual traditions of phonological thought that form the foundation of later thinking and continue to enrich phonological theory. Chapters in Part II describe the important schools and individuals of the late nineteenth and early twentieth centuries who shaped phonology as an organized scientific field. Part III examines mid twentieth century developments in phonology in the Soviet Union, Northern and Western Europe and North America; it continues with precursors to generative grammar and culminates in a chapter on Chomsky and Halle's *The Sound Pattern of English* (SPE). Part IV then shows how phonological theorists responded to SPE with respect to derivations, representations and phonology-morphology interaction. Theories discussed include Dependency Phonology, Government Phonology, Constraint and Repair theories and Optimality Theory. The part ends with a chapter on the study of variation. Finally, chapters in Part V look at new methods and approaches covering phonetic explanation, corpora and phonological analysis, probabilistic phonology, computational modelling, models of phonological learning and the evolution of phonology. This in-depth exploration of the history of phonology provides new perspectives on where phonology has been and sheds light on where it could go next.
