

# The Dynamics of Masters Literature

Early Chinese Thought  
from Confucius  
to Han Feizi

Wiebke Denecke

## 1.1 THE MASTER SAID:

"To learn something  
and then to put it into  
practice at the right time  
is this not a joy? To have  
friends coming from afar  
is this not a delight? Not to be  
upset when one's merits are  
ignored: is this not the virtue  
of a gentleman?"

## 1.2 MASTER YOU SAID:

"A man who does not  
his parents and does not  
would hardly be able to  
duty his superior  
and his country."

## **Studies In Chinese Thought:**

*Studies in Chinese Thought* Arthur F. Wright, 1953 Based on papers presented at a conference held by a subcommittee on Chinese thought attached to the Committee on Far Eastern Studies jointly sponsored by the American Council of Learned Societies and the Far Eastern Association Includes bibliographies      **Studies in Chinese Thought** Derk Bodde, 1953

*Studies in Chinese Philosophy and Philosophical Literature* Angus Charles Graham, 1990-01-01 Graham addresses several fundamental problems in classical Chinese philosophy and in the nature and structure of the classical Chinese language These inquiries and reflections are both broad based and detailed Two sources of continuity bring these seemingly disparate parts into a coherent and intelligible whole First Graham addresses that set of fundamental philosophical questions that have been the focus of dispute in the tradition and that have defined its character What is the nature of human nature What can we through linguistic and philosophical scrutiny discover about the date and composition of some of the major texts What sense can we make of the Kung sun Lung sophistries A second source of coherence is Graham's identification and articulation of those basic and often unconscious presuppositions that ground our own tradition By so doing he enables readers to break free from the limits of their own conceptual universe and to explore in the Chinese experience a profoundly different world view      *Studies on Contemporary Chinese Philosophy (1949-2009)* Qiyong GUO, 2018-01-29 Guo Qiyong's

edited volume on contemporary Chinese philosophy offers a detailed look at research on Chinese philosophy published from 1949-2009 in Mainland China and Taiwan The chapters in this volume are broken down into either major themes or time periods in the history of Chinese philosophy In each chapter after summarizing significant aspects of a particular theme or time period lists are drawn up of the most important works along with comments on their individual contributions This volume allows readers to both familiarize themselves with specific texts and become immersed in the more general philosophical discourse surrounding the history of Chinese philosophy It provides an in depth look into serious debates and major discoveries in Chinese language philosophical scholarship from 1949-2009      **Studies in Chinese Thought; Edited**

**by Arthur F. Wright. With Contributions by Derk Bodde (And Others).** Arthur F. Wright, 1967      **Studies in Chinese Thought, Etc** Arthur Frederick WRIGHT, 1953      **Lieberthal-Rogel Center for Chinese Studies (University of**

**Michigan) Publications** University of Michigan. Lieberthal-Rogel Center for Chinese Studies, 1962 Includes miscellaneous newsletters student publications calendars bibliographies and brochures Also contains a set of monographs produced in various series by the center      *Harmony in Chinese Thought* Chenyang Li, Dascha Düring, Sai Hang Kwok, 2021-03-10 He or

harmony has traditionally been a central concept in Chinese thought and to this day continues to shape the way in which people in China and East Asia think about ethics and politics Yet there is no systematic and comprehensive introduction of harmony as has been variously articulated in different Chinese schools This edited volume aims to fill this gap The individual contributions elaborate the conceptions of harmony as these were exemplified in central Chinese schools of thought

including Daoism Confucianism Legalism Mohism Buddhism and trace their impact on contemporary Chinese philosophy The volume explores the various meanings and implications of harmony so as to consider its relevance as a value and virtue in the modern world It provides an accessible but substantial introductory work for readers interested in learning about pertinent core concepts and theories in Chinese thought as well as engages specialists in Chinese philosophy by explicating its implications for ethical political epistemological and metaphysical reflection as the basic point of reference

**Studies in Chinese Thought. [By Various Authors.] Edited by A.F. Wright, Etc. (Comparative Studies of Cultures and Civilisations. No. 1.).** Arthur Frederick WRIGHT, 1953

**After Confucius** Paul Rakita Goldin, 2005 After Confucius is a collection of eight studies of Chinese philosophy from the time of Confucius to the formation of the empire in the second and third centuries B C E As detailed in a masterful introduction each essay serves as a concrete example of thick description an approach invented by philosopher Gilbert Ryle which aims to reveal the logic that informs an observable exchange among members of a community or society To grasp the significance of such exchanges it is necessary to investigate the networks of meaning on which they rely Paul R Goldin argues that the character of ancient Chinese philosophy can be appreciated only if we recognize the cultural codes underlying the circulation of ideas in that world Thick description is the best preliminary method to determine how Chinese thinkers conceived of their own enterprise Who were the ancient Chinese philosophers What was their intended audience What were they arguing about How did they respond to earlier thinkers and to each other Why did those in power wish to hear from them and what did they claim to offer in return for patronage Goldin addresses these questions as he looks at several topics including

**Contemporary Chinese Thought**, 2003

*Yüan Thought* Hok-lam Chan, 1982-01-01 Ten conference papers which focus on the literature's attempt to regain control and rejuvenate the indigenous traditions of Confucianism Taoism and Buddhism

**The Chinese Idea of a University** Rui Yang, 2022-09-02 In The Chinese Idea of a University Phoenix Reborn Rui Yang conceptualizes the cultural foundations of modern university development in Chinese societies Instead of focusing on the uniqueness of the societies this book aims to prove that one educational purpose could be fulfilled via many paths and that most of the characteristics the university could be found in other institutions of higher learning Citing the practices of four selected Chinese societies Yang opposes the existence of an impassable chasm between Chinese and Western ideas of a university and argues that it is possible to combine Chinese and Western ideas of a university Also

this book is one of the first in English to theorize the Chinese idea of a university It links the historical events to the present in a context of an enormous impact of Western academic models and institutions from the beginning of modern universities in Chinese societies to the contemporary period The scholarship is of high quality based on a thorough critical reading of relevant literature in both English and Chinese as well as detailed empirical research carried out on the campuses of eight leading universities in the four Chinese societies under consideration Ruth Hayhoe professor University of Toronto Yang Rui has produced an academic masterwork China has arrived as a global power and the East Asian university has achieved or largely achieved the long project of catch up to the West The future begins now and question of the Chinese idea of a university should trigger much discussion Professor Yang favors the development of hybrid East West higher education in the Chinese civilizational zone noting that to an extent existing universities have taken this path already He develops these challenging issues with a depth of scholarship far exceeding the current journal papers in the topic area and a style of exposition that reads really well A book of lasting importance Highly recommended Simon Marginson professor University of Oxford joint editor in chief Higher Education     Studies in Chinese Thought.
