## **Studies In Earlier Old English Prose:**

*Studies in Earlier Old English Prose* Paul E. Szarmach, 1986-01-01 Old English prose before the late tenth century is examined in this collection of hitherto unpublished essays. Using a variety of techniques the authors explore well known and lesser known texts in search of a better understanding of why, how and by whom the manuscripts were produced. Part I of the collection contains six studies of Alfredian prose: the *Soliloquies*, the *Pastoral Care* and *Consolation of Philosophy*, all of which are translations traditionally associated with King Alfred. Part II contains nine essays on various prose works outside of the Alfredian milieu including the Old English Dialogues, the Old English Bede, the *Chronicle* and *Laws* and various religious works. The authors emphasize the importance of a fresh look at Latin backgrounds and sources and the need to return to manuscript evidence for new insights. As a group they argue for sympathetic contextual analysis urging scholars in the field to reexamine the prose of the earlier Old English period to find cultural and literary value and significance. A bibliographical appendix supplements the Greenfield-Robinson bibliography for the period ending in 1982. The contributions in this volume complement the eleven essays found in *The Old English Homily and Its Background* edited by Paul E. Szarmach and Bernard F. Huppe (also published by SUNY Press).

## **Studies in the History of the English Language IV** Susan M.

*Fitzmaurice, Donka Minkova, 2008-11-06* Empirical and Analytical Advances in the Study of English Language Change continues the project of initiating and energizing the conversations among historians of the English language fostered by the series of conferences on studying the history of the English language, SHEL, begun in 2000 at UCLA. It follows in the footsteps of three high profile SHEL based collections of peer-reviewed research papers and point-counterpoint commentaries. In the current volume the editors invited contributors to reflect upon their approaches and practices in undertaking historical studies focusing particularly on the methods deployed in selecting and analyzing data. The essays in this volume represent interests in the study of linguistic change in English that range across different periods, genres and aspects of the language and show different approaches and use of evidence to deal with the subject. They also represent the current state of research in the field and the nature of the debates in which scholars and historians engage as regards the nature of the evidence adduced in the explanation of change and the robustness of heuristics. The editors share a strong interest in examining the evidence that informs and grounds research in their fields at the same time as interrogating the heuristics employed by their colleagues for the histories they present. The contributions to the volume give expression to these interests. Contributors are Richard Hogg (to whose memory the volume is dedicated), William Labov, Elizabeth Traugott, Rob Fulk, Thomas Cable, Jennifer Tran, Smith, Charles Li, Christina Fitzgerald, David Denison, Christopher Palmer, Don Chapman, Graeme Trousdale, Joan Beal, Connie Eble, Stefan Dollinger and Raymond Hickey. The volume is of interest to scholars and postgraduate and research students in the history of English, English philology and English historical linguistics.

*A Reference Guide for English Studies* Michael J. Marcuse, 1990-01-01 This ambitious undertaking is designed to acquaint students, teachers and

researchers with reference sources in any branch of English studies which Marcuse defines as all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature Within each of 24 major sections Marcuse lists and annotates bibliographies guides reviews of research encyclopedias dictionaries journals and reference histories The annotations and various indexes are models of clarity and usefulness and cross references are liberally supplied where appropriate Although cost conscious librarians will probably consider the several other excellent literary bibliographies in print such as James L Harner's Literary Research Guide Modern Language Assn of America 1989 larger academic libraries will want Marcuse's volume Jack Bales Mary Washington Coll Lib

Fredericksburg Va Library Journal     **A History of Old English Meter** R. D. Fulk, 1992 In A History of Old English Meter R D Fulk offers a wide ranging reference on Anglo Saxon meter Fulk examines the evidence for chronological and regional variation in the meter of Old English verse studying such linguistic variables as the treatment of West Germanic parasite vowels contracted vowels and short syllables under secondary and tertiary stress as well as a variety of supposed dialect features Fulk's study of such variables points the way to a revised understanding of the role of syllable length in the construction of early Germanic meters and furnishes criteria for distinguishing dialectal from poetic features in the language of the major Old English poetic codices On this basis it is possible to draw conclusions about the probable dialect origins of much verse to delineate the characteristics of at least four discrete periods in the development of Old English meter and with some probability to assign to them many of the longer poems such as Genesis A Beowulf and the works of Cynewulf A History of Old English Meter will be of interest to scholars of Anglo Saxon historians of the English language Germanic philologists and historical linguists
