Studies In Honor Of Elias Rivers:

Signs of the Early Modern David Lee Rubin, 1996 An Archaeology of the Political Elías José Palti, 2017-03-14 In the past few decades much political philosophical reflection has been dedicated to the realm of the political. Many of the key figures in contemporary political theory Jacques Rancière, Alain Badiou, Reinhart Koselleck, Giorgio Agamben, Ernesto Laclau and Slavoj Žižek among others have dedicated themselves to explaining power relations but in many cases they take the concept of the political for granted as if it were a given, an eternal essence. In *An Archaeology of the Political* Elías José Palti argues that the dimension of reality known as the political is not a natural transhistorical entity. Instead he claims that the horizon of the political arose in the context of a series of changes that affirmed the power of absolute monarchies in seventeenth century Europe and was successively reconfigured from this period up to the present. Palti traces this series of redefinitions accompanying alterations in regimes of power thus describing a genealogy of the concept of the political. Perhaps most important *An Archaeology of the Political* brings to theoretical discussions a sound historical perspective illuminating the complex influences of both theology and secularization on our understanding of the political in the contemporary world.

Imagining Arcadia in Renaissance Romance Marsha S. Collins, 2016-03-22 From Theocritus' Idylls to James Cameron's *Avatar*, Arcadia remains an enduring presence in world culture and a persistent source of creative inspiration. Why does Arcadia still exercise such a powerful pull on the imagination? This book responds by arguing that in sixteenth century Europe a dramatic shift took place in imagining Arcadia. The traditional visions of Arcadia collided and fused with romance, the new experimental form of prose fiction, producing a hybrid dynamic world of change and transformation. Emphasizing matters of fictional function and world making over generic classification, *Imagining Arcadia in Renaissance Romance* analyzes the role of romance as a catalyst in remaking Arcadia in five canonical sixteenth century texts: Sannazaro's *Arcadia*, Montemayor's *La Diana*, Cervantes' *La Galatea*, Sidney's *Arcadia*, and Lope de Vega's *Arcadia*. Collins' analyses of the reimagined Arcadia in these works elucidate the interplay between timely incursions into the fictional world and the timelessness of art, highlighting issues of freedom, identity, formation, subjectivity, and self-fashioning, the intersection of public and private activity, and the fascination with mortality. This book addresses the underrepresentation of Spanish literature in Early Modern literary histories, especially regarding the rich Spanish contribution to the pastoral and to idealizing fiction in the West. Companion chapters on Cervantes and Sidney add to the growing field of Anglo-Spanish comparative literary studies while the book's comparative and transnational approach extends discussion of the pastoral beyond the boundaries of national literary traditions. This book's innovative approach to these fictional worlds sheds new light on Arcadia's enduring presence in the collective imagination today.

Heiple,1994 Following studies by Goodman Waley and Darst this new study of Garcilaso's work rejects as unfounded the traditional readings of Garcilaso's poetry based on the idea of sincerity and the poet's frustrated love for the Portuguese lady in waiting Isabel Freire In place of the much abused concept of sincerity Heiple argues that the intellectual currents of the Renaissance are much more important for the analysis of Garcilaso's poetry He analyzes in Garcilaso's poetry the uses of Renaissance concepts of mythology poetic style theories of love primitivism and iconological traditions Especially important in these analyses are the poetic practices of Petrarchism as defined by Pietro Bembo and the reaction against them proclaimed by Bernardo Tasso Heiple studies each of the sonnets tracing their roots in the Hispanic *cancionero* poetry through Petrarchism and Neoplatonism to the specific reactions against the Italian Petrarchan mode ending with the sonnets in imitation of the classical epigram Several longer poems Canción IV Elegy II and Ode ad florem Gnidí are discussed within the contexts of Renaissance poetic conventions and ideas bringing to the fore Garcilaso's incisive wit By abandoning the traditional search for biographical elements in the love poems Heiple is able to bring new relevant information to the interpretation of well known texts and provide new readings for many of Garcilaso's poems **Pirandellism and Samuel Beckett's Plays**
