Studies In Iconography Volume 15:

Studies in Iconography Medieval Institute Publications,1994-11-01 Fragmentary Forms Freya Gowrley,2024-11-12 A beautifully illustrated global history of collage from the origins of paper to today While the emergence of collage is frequently placed in the twentieth century when it was a favored medium of modern artists its earliest beginnings are tied to the invention of paper in China around 200 BCE Subsequent forms occurred in twelfth century Japan with illuminated manuscripts that combined calligraphic poetry with torn colored papers In early modern Europe collage was used to document and organize herbaria plant specimens and other systems of knowledge In the eighteenth and nineteenth centuries collage became firmly associated with the expression of intimate relations and familial affections Fragmentary Forms offers a new global perspective on one of the world s oldest and most enduring means of cultural expression tracing the rich history of collage from its ancient origins to its uses today as a powerful tool for storytelling and explorations of identity Presenting an expansive approach to collage and the history of art Freya Gowrley explores what happens when overlapping fragmentary forms are in conversation with one another She looks at everything from volumes of pilgrims religious relics and Victorian seaweed albums to modernist papiers collés by Pablo Picasso and Georges Braque and quilts by Faith Ringgold exploring African American identity Gowrley examines the work of anonymous and unknown artists whose names have been lost to history either by accident or through exclusion Featuring hundreds of beautiful images Fragmentary Forms demonstrates how the use of found objects is an important characteristic of this unique art form and shows how collage is an inclusive medium that has given voice to marginalized communities and artists across centuries and cultures **The Challenge of**

Emulation in Art and Architecture David Mayernik,2016-04-01 Emulation is a challenging middle ground between imitation and invention The idea of rivaling by means of imitation as old as the Aeneid and as modern as Michelangelo fit neither the pessimistic deference of the neoclassicists nor the revolutionary spirit of the Romantics Emulation thus disappeared along with the Renaissance humanist tradition but it is slowly being recovered in the scholarship of Roman art It remains to recover emulation for the Renaissance itself and to revivify it for modern practice Mayernik argues that it was the absence of a coherent understanding of emulation that fostered the fissuring of artistic production in the later eighteenth century into those devoted to copying the past and those interested in continual novelty a situation solidified over the course of the nineteenth century and mostly taken for granted today This book is a unique contribution to our understanding of the historical phenomenon of emulation and perhaps more importantly a timely argument for its value to contemporary practice

Library,1985 The Orthodox Icon and Postmodern Art C.A. Tsakiridou,2024-08-29 This study examines the theories of postmodern visuality and representation and identifies

concepts that resonate with Orthodox theology and iconography C A Tsakiridou frees the Orthodox icon from iconological precepts that limit its aesthetic and expressive range The book s key argument is that poststructuralist thought is not alien to Orthodox theology and iconography Dissonance liminality and ambiguity are essential for conveying the paradoxes of Christian faith and recognizing the hagiopneumatic vitality and openness of the Orthodox tradition Perichoresis or coinherence a concept in patristic theology that defines the relationship between the three persons of the Holy Trinity and the two natures of Christ acquires a feminine dimension in the person of the Theotokos Like the ascetical concept of nepsis it has aesthetic implications Intermedial qualities present in iconography photography and cinema help explain how icons become hosts to transcendent realities and how their experience in Orthodox liturgy and devotion has anticipated and resolved the postmodern disorientation of visuality and representation The book will be of interest to scholars working in art history postmodernism philosophy theology religion and gender studies

 Whittaker, 1999 Based on more than ten years of field work this is the only modern interpretive site report on the Sinagua
 culture Lizard Man Village is one of many small settlements in the Flagstaff vicinity occupied by the Sinagua between AD
 1050 and 1300 Generally considered affiliated with the Mogollon the major archaeological culture group in central Arizona
 the Sinagua inhabited a region where three distinct groups intersected the Mogollon the Hohokam and the Anasazi Sinagua
 survival strategy in this very arid region combined dispersed agriculture with hunting and foraging It appears that an
 essentially egalitarian social system allowed flexibility to maximize wild resources and potential agricultural sites or vice
 versa The area is characterized by a number of small villages that probably consisted of only a few families each Precisely
 because Lizard Man Village is typical of such sites the authors chose it for intensive fieldwork According to them in its very
 ordinariness lies its importance Based on the site report the authors provide interpretations for comparison to other sites in
 the Southwest as well as a detailed consideration of what went on at a small Sinagua village Using material assemblages they
 present a picture of social organization through successive culture phases *Bulletin - Indian Museum* Indian Museum, 2009
