Prayer Gary Eaborn,2023-06-26 What does it mean for rigorous thought about God to be guided by prayer What do Ignatius of Loyola s Spiritual Exercises teach us about discernment How can that discernment become a spiritual discipline which guides our choices throughout life How can that discipline guide the theological choices we all make including those of academic theologians This book moves beyond the abstract notion that theology should be prayerful to bring theology together with a particular spiritual practice It argues that the Spiritual Exercises are a system of prayerful discernment which already provide for reason to be used alongside an openness to all experience and all the ways that we can be guided by the Holy Spirit This book provides a constructive interpretation of the Exercises as a path of prayerful discernment which can be used throughout life It sees in the Exercises a way of active receptivity to all experience treating all experience as worthy of attention but also approaching that experience with humility and caution This book sees theology practiced in this way as a discerning spiritual discipline as more resistant to the challenges of modernity than theology which has been sundered from our spiritual life The Churchman ,1897 **T&T Clark Handbook of Modern Theology** ,2025-12-25 A

handbook to Christian theology in the modern period covering key themes movements figures and texts Cosmic Prayer and Guided Transformation Robert Govaerts,2012-08-29 This book presents a realistic and thoroughly spiritual outlook upon the entire created reality It lets us envisage that various created entities are participant in a relationship with God that becomes increasingly one of an intimate personal quality that is a relationship of love It thus invites discernment that the universal reality is valuable in its own right and not only as a good for the use of humanity Drawing mainly upon Scripture ancient writers especially Maximus the Confessor as well as contemporary natural sciences this book encourages the reader to perceive human salvation not as a lifting of humanity out of creation but as a transformation into God s presence in the midst of the wider created order It shows that Christian faith at its best does not exclude the wider creation but provides us with insight and hope for a harmonious being in God that is inclusive of creation It shows that Christian faith can be a resource that helps overcome the ecological crisis **Christian Theologies of Salvation** Justin S.
