

The background of the cover is a photograph of a library's bookshelves. The shelves are filled with numerous old, leather-bound books. The leather is worn and discolored, showing various shades of brown and tan. The books are arranged in rows, and the perspective is slightly angled, giving a sense of depth. The lighting is warm, highlighting the texture of the leather and the spines of the books.

A. Ward,2013-03-04 Global Media Ethics Global Media Ethics Problems and Perspectives The book pleads convincingly that news media outlets and practitioners should urgently reconsider their practices and norms in a world gone global and digitally convergent The various contributions broach the topic from completely different perspectives to create a very stimulating and constructive framework to identify and face the new ethical challenges of journalism and the news media Fran ois Heinderyckx Universit libre de Bruxelles News that crosses boundaries of culture and geography means rethinking media ethics The demands of role audience digital transmission and an industry under fierce economic pressure require the insightful approach to ethical thinking this volume provides From theory to practice this book has something for scholars and professionals alike Lee Wilkins Journal of Mass Media Ethics Global Media Ethics is a cross cultural exploration of the conceptual and practical issues facing media ethics in a global world Focusing on the ethical concepts principles and questions in an era of major change this unique textbook explores the aims and norms that should guide the publication of stories that impact across borders and which affect a globally linked pluralistic world Through case studies analysis of emerging practices and theoretical discussion a team of leading journalism and communication experts investigate the impact of major global trends on responsible journalism and lead readers to better understand changes in media ethics Chapters look at how these changes promote or inhibit responsible journalism how such changes challenge existing standards and how media ethics can develop to take account of global news media In light of the fact that media journalism is now and will increasingly become multimedia in format and global in its scope and influence the book argues that global media impact entails global responsibilities It is therefore critical that media ethics rethinks its basic notions standards and practices from a more cosmopolitan perspective      Ethics, The Social Sciences, and Policy Analysis Daniel Callahan,Bruce Jennings,2012-12-06 The social sciences play a variety of multifaceted roles in the policymaking process So varied are these roles indeed that it is futile to talk in the singular about the use of social science in policymaking as if there were one constant relationship between two fixed and stable entities Instead to address this issue sensibly one must talk in the plural about uses of different modes of social scientific inquiry for different kinds of policies under various circumstances In some cases the influence of social scientific research is direct and tangible and the connection between the findings and the policy is easy to see In other cases perhaps most its influence is indirect one small piece in a larger mosaic of politics bargaining and compromise Occasionally the findings of social scientific studies are explicitly drawn upon by policymakers in the formation implementation or evaluation of particular policies More often the categories and theoretical models of social science provide a general background orientation within which policymakers conceptualize problems and frame policy options At times the influence of social scientific work is cognitive and

informational in nature in other instances policymakers use social science primarily for symbolic and political purposes in order to legitimate preestablished goals and strategies Nonetheless amid this diversity and variety troubling general questions persistently arise     The Palgrave Handbook of African Social Ethics Nimi Wariboko, Toyin Falola, 2020-03-30 This Handbook provides a robust collection of vibrant discourses on African social ethics and ethical practices It focuses on how the ethical thoughts of Africans are forged within the context of everyday life and how in turn ethical and philosophical thoughts inform day to day living The essays frame ethics as a historical phenomenon best examined as a historical movement the dynamic ethos of a people rather than as a theoretical construct It thereby offers a bold incisive and fresh interpretation of Africa's ethical life and thought     *Media Ethics Beyond Borders* Stephen J.A. Ward, Herman Wasserman, 2010-06-15 Explores the construction of an ethics for news media that is global in reach and impact This title includes the essays that provide theoretical perspectives on major issues and applies the ideas to specific countries contexts and problems It offers a source of ethical thought and analysis on questions raised by contemporary global media
