**Spatialities in Italian American Women's Literature** Eva Pelayo Sañudo, 2021-07-05

Examining the family saga as an instrument of literary analysis of writing by Italian American women this book argues that the genre represents a key strategy for Italian American female writers as a form which distinctly allows them to establish cultural gender and literary traditions Spaces are inherently marked by the ideology of the societies that create and practice them and this volume engages with spaces of cultural and gendered identity particularly those of the mean streets in Italian American fiction which provide a method of critically analyzing the configurations and representations of identity associated with the Italian American community Key authors examined include Julia Savarese Marion Benasutti Tina De Rosa Helen Barolini Melania Mazzucco and Laurie Fabiano This book is suitable for students and scholars in Literature Italian Studies Cultural Studies and Gender Studies

*Italian American Poetics of Place* Sabrina Vellucci, 2024-11-19 This volume examines the significance of place in contemporary Italian American literature from an ecocritical perspective It fills a gap in the theoretical discourse on Italian American culture whose concerns about environmental justice have been mostly overlooked From mid twentieth century poets such as John Ciardi and Diane di Prima to late twentieth and twenty first century fiction writers such as Carole Maso and Salvatore Scibona the study combines Italian American literary criticism with the spatial turn that over the last decades has asserted the interpretive significance of place and the environment in literary texts Questioning the prejudice that sees Italian American culture as detached from ecological issues these works show that such diasporic heritage has helped forge different modes of relationship and new forms of expression in contact with the American land Their relevance lies not so much in defining or redefining Italian American ethnicity but in forging ideas and futures beyond their immediate framework and subject matter By focusing on the intersection of gender and ethnicity with local and transnational spaces and aesthetic practices Italian American Poetics of Place contributes to the growing field of inquiry that explores the resources of the literary in laying the basis for more dialogic and inclusive forms of awareness and community
