## **Studies On The Development Of Consciousness:**

Encyclopedia of Consciousness William P. Banks,2009-03-26 Consciousness has long been a subject of interest in philosophy and religion but only relatively recently has it become subject to scientific investigation Now more than ever before we are beginning to understand this mental state Developmental psychologists understand when we first develop a sense of self neuropsychologists see which parts of the brain activate when we think about ourselves and which parts of the brain control that awareness Cognitive scientists have mapped the circuitry that allows machines to have some form of self awareness and neuroscientists investigate similar circuitry in the human brain Research that once was separate inquiries in discreet disciplines is converging List serves and small conferences focused on consciousness are proliferating New journals have emerged in this field A huge number of monographs and edited treatises have recently been published on consciousness but there is no recognized entry point to the field no comprehensive summary This encyclopedia is that reference Organized alphabetically by topic coverage encompasses a summary of major research and scientific thought regarding the nature of consciousness the neural circuitry involved how the brain body and world interact and our understanding of subjective states The work includes contributions covering neuroscience psychology philosophy and artificial intelligence to provide a comprehensive backdrop to recent and ongoing investigations into the nature of conscious experience from a philosophical psychological and biological perspective

### **Integrating Philosophical and Scientific Approaches in Consciousness**

**Research** Christopher Gutland,Wenjing Cai,Anthony Vincent Fernandez,2021-06-29 **Developing Global Awareness for Global Citizenship Education** Hongtao Jing,2023-10-05 This book has explored in depth the beliefs and practices of foreign language teachers regarding global awareness in the context of a Chinese senior high school This book defines global awareness as a combination of global knowledge global attitudes and global skills for a global citizen to act from the local community to the global community By analysing qualitative data such as classroom observations interviews and focus groups with language teachers and linking these findings to language education policy and practice in China this book has explored how English language teachers teach English language intercultural communicative competence and global awareness in China This book will be of interest to researchers language teachers and students in the fields of language education and intercultural communication It also provides a readable overview for those new to the field of ICC and global citizenship education
