Studies Voltaire 18th Century Volume 252:

Studies on Voltaire and the Eighteenth Century, 1993 **Ancient Astronomical Observations and the Study of the Moon's Motion (1691-1757)** John M. Steele, 2012-02-17 The discovery of a gradual acceleration in the moon's mean motion by Edmond Halley in the last decade of the seventeenth century led to a revival of interest in reports of astronomical observations from antiquity. These observations provided the only means to study the moon's secular acceleration as this newly discovered acceleration became known. This book contains the first detailed study of the use of ancient and medieval astronomical observations in order to investigate the moon's secular acceleration from its discovery by Halley to the establishment of the magnitude of the acceleration by Richard Dunthorne, Tobias Mayer and Jérôme Lalande in the 1740s and 1750s. Making extensive use of previously unstudied manuscripts, this work shows how different astronomers used the same small body of preserved ancient observations in different ways in their work on the secular acceleration. In addition, this work looks at the wider context of the study of the moon's secular acceleration, including its use in debates of biblical chronology, whether the heavens were made up of ether and the use of astronomy in determining geographical longitude. It also discusses wider issues of the perceptions and knowledge of ancient and medieval astronomy in the early modern period. This book will be of interest to historians of astronomy, astronomers and historians of the ancient world. *Studies on Voltaire and the Eighteenth Century* Theodore Besterman, 1967 *Diderot Studies* Otis Fellows, 1967 **A Critical Bibliography of French Literature V4 18th C Supplement** Richard A. Brooks, **International directory of eighteenth-century studies 1987** International Society for Eighteenth-Century Studies, 1988 *Enemies of the Enlightenment* Darrin M. McMahon, 2002 Drawing on a wide range of primary sources, Darrin M. McMahon shows that well before the French Revolution, enemies of the Enlightenment were warning that the secular thrust of modern philosophy would give way to horrors of an unprecedented kind. Greeting 1789 in turn as the realization of their worst fears, they fought the Revolution from its onset, profoundly affecting its subsequent course. The radicalization and violence of the Revolution was as much the product of militant resistance as any inherent logic. **BOOK JACKET** **International Directory of Eighteenth-century Studies**, 1987 **French Studies**, 1979 *International Review of Biblical Studies, Volume 51 (2004-2005)* Bernhard Lang, 2006-02-01 Formerly known by its subtitle *Internationale Zeitschriftenschau für Bibelwissenschaft und Grenzgebiete*, the *International Review of Biblical Studies* has served the scholarly community ever since its inception in the early 1950s. Each annual volume includes approximately 2,000 abstracts and summaries of articles and books that deal with the Bible and related literature, including the Dead Sea Scrolls, Pseudepigrapha, Non-canonical gospels, and ancient Near Eastern writings. The abstracts, which may be in English, German, or French, are arranged thematically under headings such as e.g. Genesis, Matthew, Greek language, text and textual criticism, exegetical methods and approaches, biblical theology, social and religious institutions, biblical personalities, history of Israel and early Judaism, and so on. The articles and books that are abstracted and

reviewed are collected annually by an international team of collaborators from over 300 of the most important periodicals and book series in the fields covered The Times Literary Supplement Index ,1940 **Nineteenth-century French Studies** ,1973 **The Eighteenth Century** Richard A. The English Church in the Eighteenth Century Charles John Abbey,John Henry Overton,1878 Enlightenment Cosmopolitanism David Adams,2017-07-05 Enlightenment Cosmopolitanism brings together ten innovative contributions by outstanding scholars working across a wide array of disciplines in the humanities and social sciences Interdisciplinary in its methodology and compass with a strong comparative European dimension the volume examines discourses ranging from literature historiography music and opera to anthropology and political philosophy It makes an original contribution to the study of 18th century ideas of universal peace progress and wealth as the foundation of future debates on cosmopolitanism At the same time it analyses examples of counter reaction to these ideas and discusses the relevance of the Enlightenment for subsequent polemics on cosmopolitanism including 21st century debates in sociology politics and legal theory
