Studio Stories:

Studio Stories Dave Simons,2004-11-01 This is an engaging account of some of the most memorable moments in New York's recording history as seen through the eyes and ears of the many producers engineers songwriters and recording artists who helped make them happen It explores the explosive 30 years between 1950 and 1980 and the numerous ingredients that made them unique artists performing live in large vibrant recording spaces producers and engineers spontaneously creating new effects and techniques composers writing parts on demand in the studio and most important recording studios that had life character and their own fingerprint sound **The Sound of Architecture** Angeliki

Sioli,Elisavet Kiourtsoglou,2022-05-18 How sound and its atmospheres transform architecture Acoustic atmospheres can be fleeting elusive or short lived Sometimes they are constant but more often they change from one moment to the next forming distinct impressions each time we visit certain places Stable or dynamic acoustic atmospheres have a powerful effect on our spatial experience sometimes even more so than architecture itself This book explores the acoustic atmospheres of diverse architectural environments in terms of scale program location or historic period providing an overview of how acoustic atmospheres are created perceived experienced and visualized The contributors explore how sound and its atmospheres transform architecture and space Their essays demonstrate that sound is a tangible element in the design and staging of atmospheres and that it should become a central part of the spatial explorations of architects designers and urban planners The Sound of Architecture will be of interest to architectural historians theorists students and practicing architects who will discover how acoustic atmospheres can be created without complex and specialized engineering It will also be of value to scholars working in the field of history of emotions as it offers evocative descriptions of acoustic atmospheres from diverse cultures and time periods *Collage Workshop for Kids* Shannon Merenstein,2018-10-30 Be inspired and delighted by
