Dr Johann Hugo, 2021-04-26. This book is essential for academics that enter the field of higher education and training as it focuses on preparing teachers and trainers to respond appropriately to student success challenges. Student success is a burning issue both globally and locally. While student achievement is determined by a combination of factors, teachers and their teaching practices do matter. Higher education teachers are expected to fulfil different roles at different times such as planning for curriculum implementation, mentorship and coaching, facilitating learning, resource development and student assessment. Against this background, the primary purpose of *Empowering novice academics for student success* is building the capacity of novice teachers and trainers to play an influential role in increasing student success throughout. *EBOOK: Retention and Student Success in Higher Education*. Mantz Yorke, Bernard Longden, 2004-03-16. What is the policy background to current interest in retention and student success? What causes students to leave institutions without completing their programmes? How can theory and research help institutions to encourage student success? Retention and completion rates are important measures of the performance of institutions and higher education systems. Understanding the causes of student non-completion is vital for an institution seeking to increase the chances of student success. The early chapters of this book discuss retention and student success from a public policy perspective. The later chapters concentrate on theory and research evidence and on how these can inform institutional practices designed to enhance retention and success, particularly where students are enrolled from disadvantaged backgrounds. This book draws upon international experience, particularly from the United Kingdom, Australia, South Africa and the United States. *Retention and Student Success in Higher Education* is essential reading for lecturers, support staff and senior managers in higher education institutions and for those with a wider policy interest in these matters.
