## **The Missing Seven Hours:**

**The Missing Seven Hours** David Haisell, 1978      Mysteries of Ontario John Robert Colombo, 1999-05 This book brings together some 500 accounts of strange events and eerie experiences in the province      *Tabloiding the Truth* Steve Buckledee, 2020-06-09 What skills do journalists exhibit in sensationalising exaggerating and otherwise tabloiding the truth while usually stopping short of stating unambiguous falsehoods Why has the tabloid news not collapsed as predicted but thrived as a medium in an age of interaction and online commentary This book is a comprehensive and accessible exploration of the British tabloid newspapers from the 1960s to the present day Examining topics such as sex and the representation of women national stereotypes and Britain's relationship with Europe war coverage celebrities investigative journalism and instances where the tabloids have misread the public mood the author draws on Critical Discourse Analysis and Stylistics to take a language led approach to the UK tabloids With its interdisciplinary approach and readable prose style this book will be of interest to a wide range of readers across language and linguistics media and communication journalism political science and British cultural studies      *The New Circlemakers* Andrew Collins, 2009-03 What is the mystery of the crop circles Are they manmade or supernatural Today the majestic crop formations grace the very same pastures of southern England that in the past were the haunts of fairies hobgoblins and mysterious lights Here too are some of Britain's most spectacular prehistoric landscapes Stonehenge Avebury and Silbury Hill all act as ominous backdrops to the crop circle phenomenon Did our ancestors know something about this beguiling enchanting landscape that we are only now waking up to for the first time Is there a higher intelligence responsible for such creations and if so who are they and what are they trying to tell us Bizarrely the answer might lie not here on earth but 37 000 light years away in the constellation of Cygnus the Northern Cross where lurks a star perhaps responsible not only for the foundation of the world's earliest stone monuments but for the emergence of humanity itself      **The Disappearing Act: The Impossible Case of MH370** Florence de Changy, 2021-02-04 People often say that non fiction books read like fast moving thrillers but this one genuinely does This is a splendid book and highly recommended Daily Mail A remarkable piece of investigative journalism into one of the most pervasive and troubling mysteries of recent memory      **Networked Collective Actions** Hyunjin Seo, 2022 The summer of 2016 saw one of the most significant citizen protests in the history of democratic South Korea eventually culminating in the impeachment and conviction of then President Park Geun-hye for corruption Concerns about the president's behavior were raised in a polarized media environment with low public trust where extreme right wing media outlets amplified conspiracy theories and false claims in opposition to impeachment How then was it possible for pro impeachment protests seeking major social change to succeed And why did pro Park protesters and government efforts to defend Park ultimately fail Based on interviews with key players in the impeachment movement and original analyses of news reports and social media posts *Networked Collective Actions* untangles the intricate interactions among different actors that were supported and sometimes constrained by the

technological socio political and legal environments in which they occurred Moreover Hyunjin Seo develops a theoretical framework for understanding collective actions in dynamic information ecosystems and analyzes how information consumption patterns might prompt someone to either immediately reject a certain piece of information or to reconsider and adopt that same information Seo provides a nuanced examination of the role of journalism in a democracy where non traditional intermediaries e g social media influencers and bots have emerged as important producers and filters of information and in light of declining trust in news media **Chambers's Edinburgh Journal** ,1887 **Probate**
