

# THE MONADIC UNIVERSE

George Zebrowski, author of the best-selling novel *OMEGA POINT*, is a unique and creative talent whose thoughtful and entertaining works have generated great critical praise and gained him a devoted following of readers.

One of these fans is Thomas N. Scortis, who writes in the introduction to this volume: "I have watched George Zebrowski's body of work grow for five years. The distance he has travelled in half a decade is impressive. The rate at which his talent is growing makes me impatient to see the product of his talent twenty years from now.... I have watched Zebrowski grow artistically to become one of the leaders of the new generation of science fiction writers...."

**The Monadic Universe** George Zebrowski,1985      The Monad Manifesto Dennis William Hauck,2022-03-08 The Monad is the indivisible single source of consciousness and information that created our universe In philosophy the Monad is the origin of all things the totality of both our present existence and all possible future incarnations For theologians it is the Word of God that created the world In mathematics the Monad is the archetypal origin of all the numbers and geometric shapes that describe Nature Computer scientists view it as the cosmic code embedded in the matrix of reality In science the Monad is the Singularity the Big Bang explosion of light and consciousness from which our universe sprung forth In The Monad Manifesto we explore the mysterious monadic origin of the universe and its relationship to the field of conscious awareness that we all share The book is organized into a central Manifesto and ancillary chapters that expand and document the ideas presented These chapters include The Monad in Philosophy The Monad in Science The Monad in Mathematics and Monad Cosmology We will also explore the ways people experience monadic reality in the chapter Monadic Experiences Then we will learn methods of meditation developed down through the ages to connect to the Source in Monad Meditations

*The Monad* Charles Webster Leadbeater,1923      *Monad and Universe* Phillip Edward Burkhardt,1957      *Kantian Humility* Rae Langton,1998 Rae Langton offers a new interpretation and defence of Kant's doctrine of things in themselves Kant distinguishes things in themselves from phenomena and in so doing he makes a metaphysical distinction between intrinsic and relational properties of substances Kant says that phenomena things as we know them consist entirely of relations by which he means forces His claim that we have no knowledge of things in themselves is not idealism but epistemic humility we have no knowledge of the intrinsic properties of substances This humility has its roots in some plausible philosophical beliefs an empiricist belief in the receptivity of human knowledge and a metaphysical belief in the irreducibility of relational properties Langton's interpretation vindicates Kant's scientific realism and shows his primary secondary quality distinction to be superior even to modern day competitors And it answers the famous charge that Kant's tale of things in themselves is one that makes itself untellable      The Theosophist ,1884      *The Dilemma of Modernity* Lawrence Cahoon,1988-01-01 The development of modern culture along subjectivist lines has led to an analogue of psychological narcissism to philosophical narcissism in the culture The intrinsic value of human cultural activity has been lost and the intellectual foundation of the modern world view has been destroyed Cahoon carefully develops the idea of subjectivity and narcissism using psychological theory the dialectical theory of the Frankfurt school and historians The core of his interpretive argument is developed through careful analysis of Descartes and Kant as well as of Husserl and Heidegger Cahoon maintains a carefully controlled continuity between the analysis of philosophic positions and what they reveal about culture In the conclusion he moves toward a recreation of culture in non subjectivist naturalism Insights are drawn from Freud Fairbairn Winnicott Kohut Sennett Lasch Horkheimer Adorno Dewey Cassirer Kundera and Buchler      *A Monadic*
