The Moonlike:

Genesis Rudolf Steiner, 2013-09-10 How was the world created Battle lines are currently drawn between two dogmatic camps the fundamentalist Creationists who believe that creation took place in six days and the scientific reductionists who expound theories of big bangs and so on From a direct spiritual perception of the facts Rudolf Steiner presents a new perspective which transcends these bipolar arguments He affirms that clairvoyant research accords with the biblical descriptions but he emphasizes that the text of Genesis has to be interpreted in a special way In this extraordinary document Steiner speaks of the six days of creation as a reawakening of the previous phases of the Earth's development He describes the work of mighty spiritual entities called the Elohim and how they co-operated with other spiritual hierarchies in the creation of Earth He also clarifies the relationship of the Elohim and the biblical Jehovah In addition Steiner discusses themes of light and darkness the meaning of Adam and Eve the day of rest on the seventh day the stages of human development on Earth and the special character of the Hebrew language Also featured in this new edition is a previously unpublished introductory lecture on the meaning of mystery drama Lectures on Don Quixote Vladimir

Asiatic Society (Kolkata, India), 1883 **Prometheus** Karl Kerényi, 1997-11-30 Prometheus the god stole fire from heaven and bestowed it on humans In punishment Zeus chained him to a rock where an eagle clawed unceasingly at his liver until Herakles freed him For the Greeks the myth of Prometheus's release reflected a primordial law of existence and the fate of humankind Carl Kerényi examines the story of Prometheus and the very process of mythmaking as a reflection of the archetypal function and seeks to discover how this primitive tale was invested with a universal fatality first in the Greek imagination and then in the Western tradition of Romantic poetry Kerényi traces the evolving myth from Hesiod and Aeschylus and in its epic treatment by Goethe and Shelley he moves on to consider the myth from the perspective of Jungian psychology as the archetype of human daring signifying the transformation of suffering into the mystery of the sacrifice
