*Mountains of California* John Muir, 2021-09-06 The mountains of California From John Muir **The Mountains of California**, 2011 Famed naturalist John Muir 1838 1914 came to Wisconsin as a boy and studied at the University of Wisconsin He first came to California in 1868 and devoted six years to the study of the Yosemite Valley After work in Nevada Utah and Colorado he returned to California in 1880 and made the state his home One of the heroes of America's conservation movement Muir deserves much of the credit for making the Yosemite Valley a protected national park and for alerting Americans to the need to protect this and other natural wonders The mountains of California 1894 is his book length tribute to the beauties of the Sierras He recounts not only his own journeys by foot through the mountains glaciers forests and valleys but also the geological and natural history of the region ranging from the history of glaciers the patterns of tree growth and the daily life of animals and insects While Yosemite naturally receives great attention Muir also expounds on less well known beauty spots **The Mountains of California** Muir John, 2016-06-20 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy **The Mountains of California**

John Muir, 2017-02-09 John Muir's ebullient spirit and love of nature infuse these accounts of visiting Yosemite Valley Kings Canyon sequoia groves and Mount Whitney Blending keen observations of flora geography and geology the natural forces that shape the landscape and the changing seasons Muir paints a timeless portrait of the wilderness he called the Range of Light the most divinely beautiful of all the mountain chains I have ever seen **Mountains of California**, 1898

MOUNTAINS IN CALIFORNIA. JOHN. MUIR, 2024 **The Mountains of California** John Muir, 2018-03-02 Excerpt The Cinder Cone near marks the most recent volcanic eruption in the Sierra It is a symmetrical truncated cone about 700 feet

high covered with gray cinders and ashes and has a regular unchanged crater on its summit in which a few small Two leaved Pines are growing These show that the age of the cone is not less than eighty years It stands between two lakes which a short time ago were one Before the cone was built a flood of rough vesicular lava was poured into the lake cutting it in two and overflowing its banks the fiery flood advanced into the pine woods overwhelming the trees in its way the charred ends of some of which may still be seen projecting from beneath the snout of the lava stream where it came to rest We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience
