**On the Move to Meaningful Internet Systems: OTM 2009** Robert Meersman, Tharam Dillon, Pilar Herrero, 2009-11-06  
Internet based information systems the second covering the large scale integration of heterogeneous computing systems and data resources with the aim of providing a global computing space

Each of these four conferences encourages researchers to treat their respective topics within a framework that incorporates jointly a theory b conceptual design and development and c applications in particular case studies and industrial solutions. Following and expanding the model created in 2003 we again solicited and selected quality workshop proposals to complement the more archival nature of the main conferences with research results in a number of selected and more avant garde areas related to the general topic of Web based distributed computing. For instance the so called Semantic Web has given rise to several novel research areas combining linguistics, information systems technology and artificial intelligence such as the modeling of legal regulatory systems and the ubiquitous nature of their usage. We were glad to see that ten of our earlier successful workshops ADI CAMS EI2N SWWS ORM OnToContent MONET SEMELS COMBEK IWSSA re appeared in 2008 with a second, third or even fourth edition sometimes by alliance with other newly emerging workshops and that no fewer than three brand new independent workshops could be selected from proposals and hosted. ISDE ODIS and Beyond SAWSDL Workshops audiences productively mingled with each other and with those of the main conferences and there was considerable overlap in authors.

[Head First EJB](#) Kathy Sierra, Bert Bates, 2003-10-28 What do Ford Financial IBM and Victoria's Secret have in common? Enterprise JavaBeans (EJB) As the industry standard for platform independent reusable business components, EJB has just become Sun Microsystems' latest developer certification. Whether you want to be certifiable or just want to learn the technology inside and out, Head First EJB will get you there in the least painful way. And with the greatest understanding. You'll learn not just what the technology is, but more importantly why it is and what it is and isn't good for. You'll learn tricks and tips for EJB development along with tricks and tips for passing this latest very challenging Sun Certified Business Component Developer (SCBCD) exam. You'll learn how to think like a server. You'll learn how to think like a bean. And because this is a Head First book, you'll learn how to think about thinking. Co-author Kathy Sierra was one of Sun's first employees to teach brave early adopter customers how to use EJB. She has the scars. But besides dragging you deep into EJB technology, Kathy and Bert will see you through your certification exam if you decide to go for it. And nobody knows the certification like they do: they're co-developers of Sun's actual exam. As the second book in the Head First series, Head First EJB follows up the number one best selling Java book in the US, Head First Java. Find out why reviewers are calling it a revolution in learning tough technical topics and why Sun Chairman and CEO Scott McNealy says Java technology is everywhere: if you develop software and haven't learned Java, it's definitely time to dive in. Head First And with Head First book you don't even have to feel guilty about having fun while you're learning: it's all part of the learning theory. If the latest research in cognitive science

education and neurobiology suggested that boring dry and excruciatingly painful was the best way to learn we'd have done it. Thankfully it's been shown that your brain has a sense of style a sense of humour and a darn good sense of what it likes and dislikes. In *Head First EJB* you'll learn all about Component based and role based development The architecture of EJB distributed programming with RMI Developing and Deploying an EJB application The Client View of a Session and Entity bean The Session Bean Lifecycle and Component Contract The Entity bean Lifecycle and Component Contract Container managed Persistence CMP Container managed Relationships CMR EJB QL Transactions Security EJB Exceptions The Deployment Descriptor The Enterprise Bean Environment in JNDI Programming Restrictions and Portability. The book includes over 200 mock exam questions that match the tone style difficulty and topics on the real SCBCD exam. See why Kathy and Bert are responsible for thousands of successful exam passers. The Sun certification exam was certainly no walk in the park but Kathy's material allowed me to not only pass the exam but Ace it. Mary Whetsel Sr Technology Specialist Application Strategy and Integration The St Paul Companies. Kathy Sierra and Bert Bates are two of the few people in the world who can make complicated things seem damn simple and as if that isn't enough they can make boring things seem interesting. Paul Wheaton The Trail Boss javaranch.com Who better to write a Java study guide than Kathy Sierra reigning queen of Java instruction. Kathy Sierra has done it again. Here is a study guide that almost guarantees you a certification.
