Electronic Musician ,2004 **Dimensions of Energy in Shostakovich's Symphonies** Michael Rofe,2016-04-22 Shostakovich s music is often described as being dynamic energetic But what is meant by energy in music After setting out a broad conceptual framework for approaching this question Michael Rofe proposes various potential sources of the perceived energy in Shostakovich s symphonies describing also the historical significance of energeticist thought in Soviet Russia during the composer s formative years The book is in two parts In Part I examples are drawn from across the symphonies in order to demonstrate energy streams within various musical dimensions Three broad approaches are adopted first the theories of Boleslav Yavorsky are used to consider melodic harmonic motion second Boris Asafiev s work with its echoes of Ernst Kurth is used to describe form as a dynamic process and third proportional analysis reveals numerous symmetries and golden sections within local and large scale temporal structures In

Part II the multi dimensionality of musical energy is considered through case studies of individual movements from the symphonies This in turn gives rise to broader contextualised perspectives on Shostakovich s work The book ends with a detailed examination of why a piece of music might contain golden sections *Interavia* ,2002 **Mexico** , Library Journal ,2004 **Orgaan der Club van Nederlandsche Vogelkundigen** ,2005 **Czech Music** ,2004 Library Journal Melvil Dewey, Richard Rogers Bowker, L.
