The Minister And Grief:

The Minister and Grief Robert Wilson Bailey, 1976 Death and Religion in a Changing World Kathleen Garces-Foley, 2014-12-18 This comprehensive study of the intersection of death and religion offers a unique look at how religious people approach death in the twenty first century Previous scholarship has largely focused on traditional beliefs and paid little attention to how religious traditions evolve in relation to their changing social context Employing a sociological approach *Death and Religion in a Changing World* describes how people from a wide variety of faiths draw on and adapt traditional beliefs and practices as they deal with death in modern societies The book includes coverage of newly emerging social and religious phenomena that are only just beginning to be analyzed by religion scholars such as public shrines the role of the media spiritual bereavement groups and the use of the Internet in death practices **Aaron on Mount Hor; or, a Minister's death-scene. Kelley, 2010-03-12 The experience of grief has been a source of intrigue and curiosity throughout history and it continues to stimulate thought and theory in various fields of study Unfortunately these fields tend to function in isolation from each other The result is a substantial disconnect between grief research theory and care which has evolved greatly over the last two decades and ministerial practice Using a metaphor of grief as a mosaic Melissa Kelley presents contemporary grief theory and research integrated with important theological religious and ministerial perspectives

Written in an accessible way for ministers ministers in training and all pastoral and spiritual caregivers this book provides the most up to date theory and research in grief to help inform their care of others Through exploration of critical topics including attachment to God meaning making and religious coping in grief readers are brought right to the heart of a contemporary understanding of grief *Death the Gate of Life.
