The Minotaur Factor:

The Minotaur Factor Stuart Stern, 1977 **Beyond the Icarus Factor** Richard Hawley, 2008-02-12 A call to reconsider the place of boys in the family schools and community institutions that rob them of their inborn vitality and creativity Argues that boys have a unique free spirit nature and that efforts to alter or suppress it lead to profound unhappiness pathology or startling compulsions Demands another approach to societal expectations one that values and promotes the daring creativity of boys Richard Hawley s many years as headmaster of a boys school have convinced him that boys do indeed have a unique intrinsic and inalienable free spirit nature He sees deep flaws in the way we as parents educators and community members alter or suppress that true nature in order to turn boys into men that fit our societal template Hawley argues that the model man in our society while seemingly successful in his role may yet be unhappy in his life The very elements that we strip away from a boy s natural tendencies are the sources of spirituality and vitality that can give his life both meaning and satisfaction Without these he is lost to his essential nature A new approach is needed says Hawley and he goes to the roots of Western theology and philosophy to locate what has gone wrong and how those consequences might be addressed He sounds the clarion call to unleash promote and celebrate the seemingly dangerous pursuits that reflect the creativity and daring nature of boys Fantasy and imagination must trump cognition and problem solving We must not hold our boys back with our fears of failure but give them the tools and support they need to create wings good enough to fly wherever they wish to go Advances in Human Factors in Robots and Unmanned Systems Jessie Chen, 2017-06-30 This book focuses on the importance of human factors in the development of safe and reliable unmanned systems It discusses current challenges such as how to improve the perceptual and cognitive abilities of robots develop suitable synthetic vision systems cope with degraded reliability in unmanned systems predict robotic behavior in case of a loss of communication the vision for future soldier robot teams human agent teaming real world implications for human robot interaction and approaches to standardize both the display and control of technologies across unmanned systems Based on the AHFE 2017 International Conference on Human Factors in Robots and Unmanned Systems held on July 17 21 in Los Angeles California USA this book is expected to foster new discussion and stimulate new advances in the development of more reliable safer and highly functional devices for carrying out automated and concurrent tasks *Christianity as Mystical Fact and the Mysteries of Antiquity* Rudolf Joseph Lorenz Steiner, 2020-09-28 **Christianity as Mystical Fact** Rudolf Steiner, 1997-05 Written 1902 CW 8 As simultaneously mysticism and fact Christianity is a breakthrough in the historical development of humanity for which the mysteries with the results that they brought about form a prior evolutionary stage Rudolf Steiner During the fall and winter of 1901 02 Steiner gave a series of lectures called Christianity as Mystical Fact to members of the Theosophical Society The lectures were rewritten and issued as a book later that year They mark a watershed in the development of Western esotericism Steiner wrote of the idea behind his book The title Christianity as

Mystical Fact was one I gave to this work eight years ago when I gathered together the content of lectures given in 1902 It was meant to indicate the special approach adopted in the book Its theme is not just the mystical side of Christianity in a historical presentation It was meant to show from the standpoint of a mystical awareness how Christianity came into being Behind this was the idea that spiritual happenings were factors in the emergence of Christianity which could only be observed from such a point of view It is for the book itself to demonstrate that by mystical I do not in any way imply a vague intuition rather than strict scientific argument In many circles mysticism is understood as just that and therefore it is distinguished from the concerns of all genuine science In this book however I use the term to mean a presentation of spiritual reality a reality accessible only to a knowledge drawn from the sources of spiritual life itself Anyone who denies the possibility of such knowledge in principle will find its contents hard to comprehend any reader who accepts the idea that mysticism may coexist with the clarity of the natural sciences may acknowledge that the mystical aspect of Christianity must be described mystically This is a significant book for Steiner's own development that of Western esotericism and our own understanding of the Christ event Readers will find the evolutionary development from the ancient Mysteries through the great Greek philosophers to the events portrayed in the Gospels Included are an informative introduction and annotated notes by Andrew Welburn and an afterword by Michael Debus a priest of The Christian Community who summarizes the book and places it in context This book is a translation from German of *Das Christentum als mystische Tatsache und die Mysterien des Altertums* GA 8 Cover image Photo of Bordeaux Cathedral by James Nicholls **The Fact Factory** World Book, Inc,1999 A collection of fun facts about a variety of subjects including animals plants the Earth space and notable people throughout history *Naval Science* Joseph Woolley,1872 The Red Polled Herd Book of Cattle Descended from the Norfolk and Suffolk Red Polled Red Polled Cattle Club of America,1897 **The Chicago Clinical Review** ,1893 **A Letter to the Rt.
