Eurocentrism, Art and Art Education David Gall,2025-09-24 In this book David Gall exposes Eurocentrism in higher art education in philosophy and aesthetic theory in art history and art criticism and in K 12 teacher training discourse Gall s

book challenges tendencies in academe that would have scholars stay within their lane meaning that Art Education professors like him should stick to K 12 teacher training concerns For the multiracial multiethnic hybrid context that characterizes our postcolonial world ignoring the ethnocentrism and racism of higher levels of art education is not optional if as a global community we are to overcome resurgent fascism and realize our more comprehensive humanity Though not the only obstacle to that end Eurocentrism remains its biggest This book examines Eurocentric legacies in modernist formalism in the linguistic turn of postmodernist discourse and argues that a different understanding of the aesthetics is needed the current dominant understanding of aesthetics perpetuates an art science polarization that mischaracterizes both art and science Streams of thought outside and within Euro Western philosophies offer alternative ways of viewing aesthetics and aesthetic experience This text hopefully will help make them mainstream
