Thomas Jefferson's Image of New England Arthur Scherr,2016-10-03 Writers often depict Thomas Jefferson as a narrow minded defender of states rights and Virginia's interests despite his authorship of the Declaration of Independence and vigorous defense of the young republic's sovereignty Some historians claim he was particularly hostile to the New England states whose Federalist electorate he regarded as enemies of his Democratic Republican Party This study of Jefferson's lifelong relationship with New England reveals him to be a consistent nationalist and friend of the region from his first visit to Boston in 1784 to his recruiting of Massachusetts scholars to teach at the University of Virginia His nationalist point of view is most evident where some historians claim to see it least in his opinions of the people and politics of New England He admired New Englanders Revolutionary patriotism especially that of his friend
