knowledge alive and relevant Language and National Identity in Greece, 1766-1976 Peter Mackridge, 2009-04-02 This is a history of the great language controversy that has occupied and empassioned Greeks sometimes with fatal results for over two hundred years It begins in the late eighteenth century when a group of Greek intellectuals sought to develop a new Hellenic national identity alongside the traditional identity supplied by Orthodox Christianity The ensuing controversy focused on the language fuelled on the one hand by a desire to develop a form of Greek that expressed the Greeks relationship to the ancients and on the other by the different groups contrasting notions of what the national image so embodied should be The purists wanted a written language close to the ancient The vernacularists later known as demoticists sought to match written language to spoken claiming the latter to be the product of the unbroken development of Greek since the time of Homer Peter Mackridge explores the political social and linguistic causes and effects of the controversy in its many manifestations Drawing on a wide range of evidence from literature language history and anthropology he traces its effects on spoken and written varieties of Greek and shows its impact on those in use today He describes the efforts of linguistic elites and the state to achieve language standardization and independence from languages such as Turkish Albanian Vlach and Slavonic This is a timely book The sense of national and linguistic identity that has been inculcated into generations of Greeks since the start of the War of Independence in 1821 has in the last 25 years received blows from which it may not recover Immigration from Eastern Europe and elsewhere has introduced new populations whose religions languages and cultures are transforming Greece into a country quite different from what it has been and to what it once aspired to be *The Modern Greek Language in Its Relation to Ancient Greek*, by E. Transnational Patriotism in the Mediterranean, 1800-1850 Konstantina Zanou, 2018 Transnational Patriotism in the Mediterranean charts the lives of those who lived along the shores of the Adriatic during the first half of the nineteenth century when the region was transformed from a Venetian lake into a battlefield between old and new imperial powers and where emerging nationalisms and nation states emerged **The Modern Greek Language in It's Relation to Ancient Greek - Scholar's Choice Edition** E.
