The Monkey Wars:

The Monkey Wars Deborah Blum, 1995-12-14 The controversy over the use of primates in research admits of no easy answers We have all benefited from the medical discoveries of primate research vaccines for polio rubella and hepatitis B are just a few But we have also learned more in recent years about how intelligent apes and monkeys really are they can speak to us with sign language they can even play video games and are as obsessed with the games as any human teenager And activists have also uncovered widespread and unnecessarily callous treatment of animals by researchers in 1982 a Silver Spring lab was charged with 17 counts of animal cruelty It is a complex issue made more difficult by the combative stance of both researchers and animal activists In *The Monkey Wars* Deborah Blum gives a human face to this often caustic debate and an all but human face to the subjects of the struggle the chimpanzees and monkeys themselves Blum criss crosses America to show us first hand the issues and personalities involved She offers a wide ranging informative look at animal rights activists now numbering some twelve million from the moderate Animal Welfare Institute to the highly radical Animal Liberation Front a group destructive enough to be placed on the FBI's terrorist list And she interviews a wide variety of researchers many forced to conduct their work protected by barbed wire and alarm systems men and women for whom death threats and hate mail are common She takes us to Roger Fouts's research center in Ellensburg Washington where we meet five chimpanzees trained in human sign language and we visit LEMSIP a research facility in New York State that has no barbed wire no alarms and no protesters chanting outside because its director Jan Moor Jankowski listens to activists with respect and treats his animals humanely And along the way Blum offers us insights into the many side issues involved the intense battle to win over school kids fought by both sides and the danger of transplanting animal organs into humans As it stands now Blum concludes the research community and its activist critics are like two different nations nations locked in a long bitter seemingly intractable political standoff But if you listen hard there really are people on both sides willing to accept and work within the complex middle When they can be freely heard then we will have progressed to another place beyond this time of hostilities In *The Monkey Wars* Deborah Blum gives these people their voice *Monkey Wars* Richard Kurti, 2016 *The Monkey Wars* Bruce Weigl, 1985 Brief poems deal with the Vietnamese War a couple's quarrel a battered wife rites of passage and physical and psychological violence **War, Literature, and the Arts**, 2006 *The Works of Shoshee Chunder Dutt: The great wars of India* Shoshee Chunder Dutt, 1884 *The Great Wars of India* Shoshee Chunder Dutt, 1884 **The Monkey Wars** Burton P. Brodt, 2014-06-29 This satirical tale lampooning bigotry takes on the thorny debate between evolutionism and creationism spanning three quarters of the twentieth century in America from the Scopes Trial in 1925 to the recent past Theories of our human origins come and go it seems but intolerance and bigotry remain The story begins with the Scopes Trial or reactions to it which established that teaching evolution was illegal The novel ends with another trial almost a mirror image of the Scopes Trial which establishes Darwinism as the only creation theory that may be taught legally The issue of

creationism versus Darwinism is not really at stake and the author does not try to prove that either is right or wrong What is wrong is pigheadedness Freedom of expression even in the classroom is very much at stake in this novel and no religious or scientific clique has a right to stifle it This novel is saying that when it comes to bigotry the scientific community can be just as guilty as the religious community Part satire part philosophical puzzle part courtroom drama this experimenetal novel is told in several styles from several points of view It is sure to be controversial Whatever one s beliefs or rigid rejection of beliefs this is a novel to make you think **Drake's Magazine** ,1888 *McClure's Magazine* ,1894 *History of Toronto and County of York, Ontario: Biographical notices* ,1885 *History of Toronto and County of York, Ontario: Biographical notices* ,1885 **The Naval History of Great Britain, from the Declaration of War by France in 1793, to the Accession of George IV** William James,1886 **Issues in Science and Technology** ,1994 Notes and Queries ,1874 Poetry Wales ,1989 War and Peace graf Leo Tolstoy,1899 **War History of the Seventh Northumberland Fusiliers** F.
