

A man stands at a crossroads, facing two large, wooden directional signs. The sign on the left is labeled "MORALITY" and the sign on the right is labeled "ETHICS". The man, seen from the back, is in a contemplative pose, with his hand near his chin, suggesting he is trying to decide which path to take. The background features a vast, green landscape under a clear blue sky with a few wispy clouds.

The Ethics of Spiritualism Hudson Tuttle,1878

The Ethics of Spiritualism Hudson Tuttle,2018-07-27 Excerpt from

The Ethics of Spiritualism A System of Moral Philosophy Founded on Evolution and the Continuity of Man's Existence Beyond the Grave Along this causeway have been waged the mighty battles of the ages fought over again in the life of every individual It is the war between the animal side of man's nature and the spiritual As the race has unfolded gathering higher and clearer perceptions of right truth and justice age after age the gain has been on the side of the spiritual As in the individual the brute forces of the desires have been co-ordinated with the moral and spiritual perceptions Because of this evolution is there conflict between the two sides of man's nature Because he is an animal physically is there war between his physical and his spiritual tendencies To harmonize this apparent anomaly by which the aspirations of an angel are linked with the passions of a devil has been the primary object of all systems of theology The existence of these spiritual aspirations indicated the innate purity of the spirit and its primal perfection That it was in fact so prone to yield to the ungoverned selfishness and lust of brutes indicated a fallen and depraved state The dogmas growing out of this erroneous view were also dependent on equally false ideas of God A perfect infinite and good God would not create an imperfect man His creation would be in his own image Man was far from perfect His imperfection was the result of sin and wickedness As his Creator does not wish him to sin he sins from choice His free agency shifts the burden of responsibility from God to himself Created perfect he has sinned by choice and became depraved through and by means of his own wickedness He has corrupted himself To escape the infinite consequences he must have faith in a verbal revelation and a certain scheme of redemption Immortality is not the result of immutable laws and has no relation to the constitution of things Men reared in this belief when they cast it aside are often unbalanced About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Chakrabarti,2024-04-23 How does one's upbringing determine one's ethical and religious views Are humans unique in this universe Is God dead as Nietzsche declared Is there any truth beyond scientific facts How different religions relate to one another What are the truth and falsehoods in various religions Are communism and nihilism more in sync with reality than religion How should we prioritise between self-interest and sacrifice What should be our individual role to seek global peace Is there a higher purpose in life than just living The author a scientist scholar innovator entrepreneur and philanthropist

The Future of Religion and the Religion of the Future Theodore John Rivers,2011-11-25 In The Future of Religion and the Religion of the Future Theodore John Rivers explores the changing relationship between technology and religion Rivers draws upon his expertise in the fields of medieval and religious history to discuss how the promotion of Christianity and monasticism in the Middle Ages began a process that has lent religious undertones to the way in which we interact with modern technology Rivers ultimately suggests that the growing presence of technology makes it a likely candidate for the next religious form competing with all the major religions in place today
