Rushdoony, 2009-11-16 To attempt to study Scripture without studying its law is to deny it To attempt to understand Western civilization apart from the impact of Biblical law within it and upon it is to seek a fictitious history and to reject twenty centuries and their progress The Institutes of Biblical Law has as its purpose a reversal of the present trend it is called Institutes in the older meaning of the that word i e fundamental principles here of law because it is intended as a beginning as an instituting consideration of that law which must govern society and which shall govern society under God To understand Biblical law it is necessary to understand also certain basic characteristics of that law In it certain broad premises or principles are declared These are declarations of basic law The Ten Commandments give us such declarations A second characteristics of Biblical law is that the major portion of the law is case law i e the illustration of the basic principle in terms of specific cases These specific cases are often illustrations of the extent of the application of the law that is by citing a minimal type of case the necessary jurisdictions of the law are revealed The law then asserts principles and cites cases to develop the implications of those principles with is purpose and direction the restitution of God s order

Budiselić, 2024-04-30 In an age of relativism tolerance and political correctness the church is called to walk in the footsteps of Christ As his witnesses we must reject all forms of coercion and violence while simultaneously refusing to shy away from the authority and conviction that come from carrying his revelation Dr Ervin Budiseli examines the concept of witnessing in the writings of Luke contextualizing it within the larger framework of Scripture s emphasis on revelation and testimony Like Judaism Christianity is a religion of revelation where specific content must be preserved passed on and proclaimed to others Dr Budiseli explores the communal nature of this calling as well as its pneumatological implications within Luke s writings Acknowledging the tendency within the Western church to emphasize moral transformation over physical he reminds readers

that Jesus's kingdom ministry was accompanied by deeds as well as words. He specifically engages the dangers of normalizing a gospel disconnected from the supernatural or the miraculous as partnership with the Holy Spirit was central to the calling given to the early church. This book offers a prophetic message for the church today as it seeks to fulfill its calling to faithfully witness to the revelation of Christ. While traditional Arabic and Persian Islamic texts used unfamiliar concepts to explain Islam, Liu Zhi translated both text and concepts into Chinese culture. In this erudite volume, David Lee examines how Liu Zhi integrated the basic religious living of the monotheistic Hui Muslims into their pluralistic Chinese culture. Liu Zhi discussed the Prophet Muhammad in Confucian terms and his work served as a bridge between peoples. This book is an in-depth study of Liu Zhi's contextualization of Islam within Chinese scholarship that argues his merging of the two never deviated from the basic principles of Islamic belief.
