Europe and North America In the United States school children armed with military weaponry kill and maim other school children for no apparent reason The Ninth Siddhi advocates for a new path to a nonviolent world A path without automatic weapons chemical bombs or nuclear missiles It is clear that gun laws sanctions diplomacy or the strongest political action will not bring peace to the world Reason will not prevail A new path is necessary that leads all loving families to a nonviolent world and a more peaceful ideology The technological solution for world peace is dependent on activating and inspiring world populations to walk this path together The new technology actualizes ancient wisdom from antiquity which states that when war suffering and terror grow an invincible force of nature moves to set man s vision right and establish a way of life living and loving that again will fulfill the high purpose of human existence
