**Primary Mathematics** Jenny Houssart, 2013-04-15 In this fascinating book Jenny Houssart draws on close observations with children in lower mathematics sets in primary schools to investigate why some children opt out of mathematics at an early age. After introducing us to the children she addresses a particular type of mathematical task in each chapter including mental work, practical work, written work, calculators and computers, assessment tasks. Through the use of stories and quotes the author shows how the children respond to specific tasks and presents evidence of a range of difficulties that emerge as the children are working. Each chapter ends with discussions and implications for classroom practice.

**Primary Mathematics** will be a useful resource for primary teachers, student teachers, SENCOs and teaching assistants who will all recognise these children from their own classrooms and draw insights from this highly readable book.

*Excel Selective Schools and Scholarship Tests* John Moir, 2013 The aim of Excel Test Skills Selective Schools Scholarship Tests Skills Strategies Years 5-6 is to identify, develop and practise the skills useful in test situations in particular the Selective Schools and Scholarship Tests. Recognition of these skills and strategies and confidence in applying them will lead to better test results. In this book students will find an introduction with advice to parents and students, an explanation page for each skill with sample questions and strategies, a page of practice test questions for each different type of skill and a detailed Written Expression section on how best to compose essays in tests. Answers to all multiple choice questions, explanations that outline the thinking skills required for each question.

### *Much Promise: Successful Schools in England* Barnaby Lenon, 2017-04-24

Barnaby Lenon, a former schoolmaster and headmaster who is chair of the Independent Schools Council, takes an in-depth look at the elements that make up a successful school. He examines leading and latest research on school leadership and management, looks at how teachers, pupils, parents and governors can achieve results and puts the spotlight on subjects, exam systems and social mobility. For his research he visited a number of schools that are achieving outstanding results: John Perryn Primary School, Acton Tollgate Primary School, Newham King Solomon Academy, Marylebone Burlington Danes Academy, Hammersmith West London Free School, Hammersmith Michaela Community School, Wembley St Mary Magdalene Academy, Islington Dixons Kings Academy, Bradford Tauheedul Boys School, Blackburn London Academy of Excellence.

Newham and Brighton College His analysis of their innovations and achievements provides an insight into some of England's most successful schools     *Mathematical Subjects* Fiona Walls,2009-08-10 Teaching and learning mathematics is a political act in which children teachers parents and policy makers are made visible as subjects As they learn about mathematics children are also learning about themselves who they are who they might become We can choose to listen or not to what children have to say about learning mathematics Such choices constitute us in relations of power Mathematical know how is widely regarded as essential not only to the life chances of individuals but also to the health of communities and the economic well being of nations With the globalisation of education in an increasingly market oriented world mathematics has received intensified attention in the first decade of the twenty first century with a shifting emphasis on utilitarian aspects of mathematics This is reflected in the reconceptualisation of mathematical competence as mathematical literacy loosely conceived as those ways of thinking reasoning and working mathematically that allow us to engage effectively in everyday situations in many occupations and the cut and thrust of world economies as active empowered and participatory citizens It is no surprise then that mathematics has become one of the most politically charged subjects in primary school curricula worldwide We are experiencing an unprecedented proliferation of regional and national strategies to establish benchmarks raise standards enhance achievement close gaps and leave no child behind in mathematics education Industries have sprung up around the design administration and monitoring of standardised assessment to measure and compare children's mathematical achievement against identified benchmarks and each other
