France Since The Revolution:

France Since the Revolution Alfred Cobban, 1970 **France Since the Revolution** Claire Gorrara, Rachael Langford, 2003-01 *France since the Revolution* Texts and Contexts introduces students to modern France by exploring the emergence and development of France's five Republics and the values and ideals of French republicanism. Starting with the events of the French Revolution of 1789, each of the chapters in the book focuses on a flashpoint in French history: the Revolution of 1848, the Paris Commune of 1870, the Dreyfus affair of the 1890s, the First and Second World Wars, the Brazzaville conference of 1944, May 1968, and the campaign for political parity for women in the 1990s. Written by specialists from a range of disciplines including history, cultural studies, politics, and French area studies, these chapters address a series of contexts providing an overview of events and a critical interpretation of how such upheavals have affected the history of France's Republics. Questions of gender, race, and class are pivotal to such analyses. Complementing this emphasis on contexts are a number of texts available in French and English that give a flavour of how individual French men and women experienced their times. As an introductory book for undergraduates, *France since the Revolution* does not assume extensive previous knowledge and contains a complete glossary of the key names used in chapters, as well as a time line for reference and suggestions for further reading. An important resource for students and teachers alike, this accessible book gives its readers a firm base in nineteenth and twentieth century French history and culture from which to develop more specialized interests. France in Revolution, 1776-1830 Sally Waller, 2002 The AS/A2 History series that everyone's talking about

France After Revolution Denise Z. Davidson, 2007-04-30 Davidson provides a reevaluation of prevailing views on the effects of the French Revolution and particularly on the role of women. Arguing against the idea that women were forced from the public realm of political discussion, Davidson demonstrates how women remained highly visible and active. **Selections from Burke's Reflections on the French revolution** Edmund Burke, 1893 *France in Revolution* Dylan Rees, Duncan Townson, 2001 This second edition provides an updated narrative and analysis of one of modern Europe's most important and dramatic events. The author examines the causes, course, and impact of the French Revolution from its onset through to the overthrow of Napoleon. Starting with the ancien régime, the text covers the events that led to the outbreak of the revolution in 1789, the rise of the republican movement, the Terror, and the Thermidorian reaction. Coverage of the impact of the Revolution on France and the rest of Europe has been fully updated to take into account recent research. The title also considers the latest historical interpretations of the French Revolution. The updated study guides provide a firm basis for answering source-based and essay questions.
