## Soul On Heat:

Aristotle on Sexual Difference Marguerite Deslauriers, 2022 Aristotle on Sexual Difference is a book about Aristotle's understanding of the differences between male and females and men and women. It considers what he says about biological differences between the sexes and about psychological differences that he thinks justify different political roles for men and women. It discusses the authors who preceded Aristotle, highlighting that they treat sexual difference as a misfortune and women as an evil inflicted on men. This book demonstrates that Aristotle rejects that view and that he argues for the benefit of sexual difference to animal species and the value of women to their political communities. It also traces a connection between Aristotle's accounts of the physiological defects of women and of their political limitations. **Lucifer**, 1892

**Aristotle's ›Generation of Animals‹** Sabine Föllinger, 2022-06-21 Aristotle's work *On Generation of Animals* is fascinating. By integrating empirical facts into contexts of justification and by explaining reproduction in the framework of his general theory, Aristotle wrote a biological masterpiece. At the same time, it raises many issues because, due to the difficulty of the subject under investigation, for example, the egg cell had not yet been discovered, the theory is complex and often speculative. The contributions in this volume, resulting from a conference held in Marburg in 2018, study the challenging writing from various perspectives. They examine the structure of the work, the method, and the manner of writing, its relation to other writings, and its scientific context. By investigating the underlying philosophical concepts and their relation to the empirical research offered in *On Generation of Animals*, the contributions also try to solve puzzles which Aristotle's explanation of the role of male and female offers, as well as his idea of embryogenesis. An outlook for the history of reception rounds off the volume. *A History of Modern Philosophy* Benjamin Chapman Burt, 1892 **The Works of George**
